## Holding the Balance of Light in the Earth

Let the calls continue for the containment, for the harmonization, of light within the nuclear power plant, within all such installations upon the planetary body. For the danger signs on the surface are not nearly so great as the dangers beneath—the entire matter of earth's evolutions using nuclear energy for power when they themselves do not have the full mastery and God-control of the light of Alpha and Omega, of the light of Alpha and Omega in their very own heart flame, in their very own cells....

*I AM Alpha and Omega in the white-fire core of being.*

This is the mantra that resolves the flow of energy—intense energy, fiery core energy even at the nucleus of the atom, even in the core of the nuclear power plant.

SUMMIT UNIVERSITY® SUMMER RETREAT JULY 6-10, 2011

SUMMIT UNIVERSITY®

# THE SCIENCE OF Life

*Defend the Sanctity of the Soul*

with Jesus Christ, Hilarion, Pallas Athena and the Brotherhood of Truth

*The flame of Truth is an intense, bright emerald green. It combines the flaming blue power of God's will and the brilliant golden illumination of the wisdom of God. When invoked, it transmutes all erroneous concepts, feelings and manifestations and gives to those it touches the freedom to choose the Real from the unreal.*

Life is the greatest gift that we have received from God. However, for many in these turbulent times we live in, life is little understood or appreciated. There is a deep ignorance of the true meaning of life—the science of life that explains in no uncertain terms why we are here and how we attain ultimate wholeness and union with our Divine Self.

How do I heal my own soul? How do I share a sense of purpose and wholeness with others? And how do I restore and defend the sanctity of life, especially where it is most helpless—in the womb?

Our SU summer retreat offers you a unique opportunity to increase your skills as a comforter of souls and defender of life—

through acceleration in the flame of living Truth. You will:

- Trace the life of the apostle Paul as he embraced his mission and proclaimed the purpose and sanctity of life wherever he went
- Revisit Paul as the fourth-century mystic and miracle worker Saint Hilarion, and with him explore the art and science of healing that bring deep inner resolution to your soul
- Delve deeply into the beautiful details of the soul's journey through life, including the developmental stages and spiritual life of the unborn child
- Participate in practical, hands-on sessions on how to engage in issue advocacy for the defense of life
- Hear milestone recorded dictations by the ascended masters Jesus Christ, Hilarion and Pallas Athena, the Goddess of Truth, that will teach you how to take a stand for Truth wherever you are

**Come and decode the science of life and join forces with like-minded souls in the flame of living truth!**

*Can you count the days and the hours of opportunity open to you? There is only one goal—it is life. And that goal includes the impartation of life heart to heart. This is the way of living the life triumphant on Terra.*

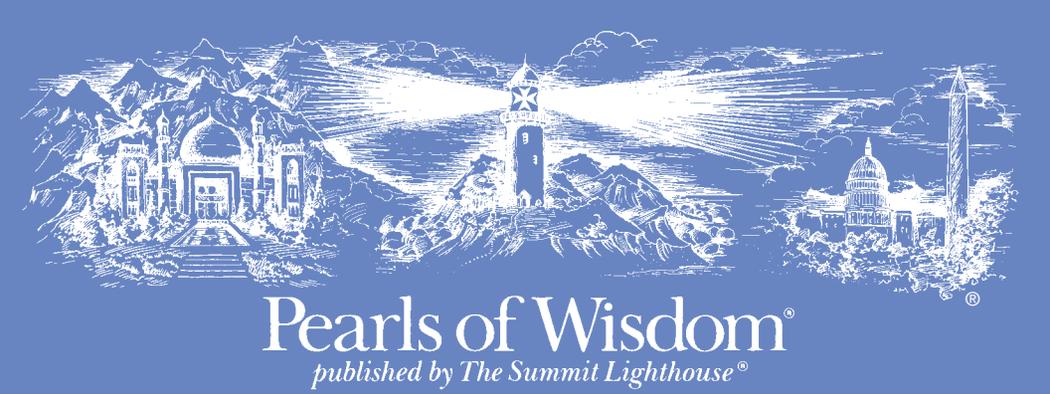

—Hilarion, December 29, 1976

Attendance: This Summit University seminar is open to Keepers of the Flame as well as new students. A basic understanding of the Teachings of the Ascended Masters® and the Science of the Spoken Word® is required. The minimum age for attendance is 15.

## Holding the Balance of Light in the Earth

### *The Mantra That Resolves the Flow of Energy in the Nucleus of the Atom*

From the heart of the Himalayas, I AM come, answering the call of my children. I hear their cries in the night. I hear the fear that rises from America and from every nation.

I AM the Manu of light and I come to reinfuse the very earth with the will of God. Himalaya I AM THAT I AM, the god of the mountain. I AM in the white-fire core of being. And therefore Vaivasvata, the Great Divine Director and the God and Goddess Meru stand with me for the holding of the balance of the Four Cosmic Forces, who guard the throne of the Almighty.

Who are the Four Cosmic Forces? They are the manifestations of the LORD God himself, the living creatures referred to as the four beasts who are in the midst of the throne and around the throne of the one God.<sup>1</sup>

Now, this mighty forcefield of the Four Cosmic Forces is for the distribution of light of Alpha and Omega and the trinity of being unto the quadrants of Spirit and Matter. Therefore we four,<sup>2</sup> appointed by the Ancient of Days, do hold in the very heart of the earth that balance of light that is so

needed in this hour of seeming peril, and indeed a peril of sorts unto elemental life.

Therefore we come in answer to the calls of our chelas. By the word of the chela, let it be established in the earth, and let that which is the law of God manifest now. Let it manifest as “I, the LORD,” the LORD hath said unto me, “I, the LORD, come to manifest my judgments in the earth.”

Therefore we hold the line of light, the maxim light which can be anchored in the earth in time of distress. And we hold that light for the protection of souls of light against the day of the oncoming judgment.

### **“I AM Alpha and Omega in the White-Fire Core of Being”**

Let the calls continue for the containment, for the harmonization, of light within the nuclear power plant, within all such installations upon the planetary body. For the danger signs on the surface are not nearly so great as the dangers beneath—the entire matter of earth's evolutions using nuclear energy for power when they themselves do not have the full mastery and God-control of the light of Alpha and Omega, of the light of Alpha and Omega in their very own heart flame, in their very own cells.

Therefore, will you speak with me now the mantra that Mother has given to you: *Lo! I AM Alpha and Omega in the white-fire core of being.*

[Congregation affirms with Himalaya:]

*I AM Alpha and Omega in the white-fire core of being.*

*I AM Alpha and Omega in the white-fire core of being.*

*I AM Alpha and Omega in the white-fire core of being.*

This is the mantra that resolves the flow of energy—intense energy, fiery core energy even at the nucleus of the atom, even in the core of the nuclear power plant, even in

the process of fission and of fusion. So it is the mantra whereby the free son and daughter of God may hold the balance of light.

And that balance is translated into nature, into the very elements themselves, by the four beings of the elements, who have drawn nigh unto you in this hour and who continue to intensify their work, their labor, their calls. They indeed (functioning as they do in the Matter sphere) are the very close ones, near and dear to your heart, who translate our light in your service, beloved ones. They are quick to answer your call when you summon them. And they wield the mighty power of the Holy Spirit to effect that healing, that change and that balance, that alignment that is necessary, not only in the use of nuclear energy but in all of the affairs of earth and her evolutions this day.

#### **Man Has Played with the Energies of Life Irresponsibly**

Therefore, it is understood by the Darjeeling Council and by the council of the Royal Teton that in this day and hour—when individuals are using nuclear energy yet have not the God-control—when there are mishaps, when there are unforeseen accidents, they have, as it were, created the sorcerer's apprentice. They have before them the genie which they can no longer control! It is the energy of life itself. It is all-powerful life. And thus, that it be used by those who are not centered in that life can only result in further accident, leading to catastrophe.

Thus, this condition in Harrisburg<sup>3</sup> is given as a warning, as a solemn warning, unto the people of earth in every nation: Let not your greed for power or your desire to use such means of energy cause you to overlook the very fact that you do not now possess all of the necessary power to control

these energies.

Therefore, let men seek the further development of solar power. Let them seek the correct use of the reserves of oil, natural gas and coal and all that can be derived from the sea itself. For, beloved ones, unless there is the 100 percent assurance that these nuclear power plants will operate and function in absolute safety unto the people, it is therefore the vote of the Great White Brotherhood, the Darjeeling Council and the Lords of Karma this day that such nuclear power plants ought not to be installed and those that have been installed ought to be shut down.

Beloved ones, it is absolutely inconceivable, yet it is the reasoning of the human consciousness, to continually experiment with those energies of life about which they have so little knowledge—be it the genes and chromosomes, be it the experimentations in fetal research, be it the introduction of drugs used in the temples of the people without the full understanding of the ramifications.

Beloved ones, earth is a playground, but man has made of it a playground to play with the energy of God with irresponsibility. And thus, those who are irresponsible are willing to allow to come upon the people of earth dangers that will continue for generations.

#### **Unite in Prayer to Bind the Fallen Ones and Avert Calamity and Cataclysm**

Let the sons and daughters of God therefore challenge those who are in the field of science who were present on Atlantis, who were the very ones who caused its sinking, those who are experimenting in their psychotronics in all sorts of rays. They, then, use that energy without the sense of responsibility to life and to the path of initiation. By the fervent calls of the chelas of the light, we are determined to avert each

such potential disaster.

But, beloved ones, we deal here with megatons of energy which mankind by free will have set in motion. And therefore the law of karma dictates, by the use of free will so they must know and understand what are the conditions of that free will and what they have set in motion. By the great mercy of the Law, therefore, the calls for intercession—the prayers of millions and the dynamic decrees of the chelas—are being sifted, even as the hearts of the people are being sifted.

As our eye is upon the sparrow, so our eye is also upon the souls of light as well as the seed of the wicked. And therefore once again, we do call forth the sons and daughters of God to make a more than ordinary sacrifice, to come forward, to be counted, to lead the people, and to defend the precious sheep against these inroads of satanic insanity that will not cry halt to the dangers of nuclear energy and all other dangers imposed upon this generation—through chemicals, through pesticides, through incorrect doses of medicine, through all manner of substances which have been fed to the blessed women who are with child and whose children and children's children will yet suffer from the intrusion upon the body temples of those substances that are not in harmony with the light of Alpha and Omega.

We stand in the heart of the earth with Virgo and Pelleur. We send forth a signal to elemental life to right and to align the four lower bodies of all children of the light who have thus suffered at the hand of the seed of the wicked and their nefarious experiments upon the people whom they have made their guinea pigs.

O beloved ones, our hearts too cry out to the living God for intercession and for mercy. And the LORD God has answered. Our mercy has gone forth. Our mercy has come in the person of the Woman clothed with the Sun and the souls

of light bidding in the spheres of Mater. Our mercy has been sent in a just judgment of all evolutions. That judgment therefore must cycle through the cycles of manifestation, and that judgment must be of the seed of the wicked.

And therefore we have heard the LORD God affirm this day that in order to secure the everlasting peace of God upon earth and his kingdom come, the children of the light must rise up and give the invocation of the Lord Jesus Christ unto the judgment. For it is the seed of the wicked who have implanted these nefarious deeds and manifestations in your midst.

And thus the LORD God has said, “It behooves all souls of light to unite in a novena of prayer that these fallen ones be bound and that calamity and cataclysm be averted. For I, the LORD God, have spoken. *I, the LORD God, have spoken.*” [chanted]

Therefore the heart of Alpha and Omega is one. And for the manifestation of the light in the heart of the earth, there is a staying action this day as the fiery coils of light descend to bind those individuals who would wreak havoc upon earth before the fruition of the Word, of the Lamb, of the Tree of Life.

We therefore stretch forth our hand. Thus saith the LORD God. We stretch forth our hand this day. And there is the holding action, that the children of the light might come forth in the resurrection flame this Eastertide and gather at our mystery school, which we have ordained, to drink in, to manifest, to uphold and to become the veritable rods of light—rods of energy, rods of resurrection flame—to hold the balance in the earth.

I have spoken out of the flame of the blue lotus. I have spoken out of the flame of universal life.

Let men and women of earth *heed* the warning of the Manus! Let sons and daughters of God proceed with caution.

Let the energy of God be revered as the life in the fiery core of the atom. And let souls of earth pursue the path of initiation before engaging in the uses of power to which they have not yet applied the fullness of the flame of God-mastery.

*Himalaya I AM. I AM Himalaya. I AM. I AM. I AM. I AM in the heart of the earth. I AM in the heart of the atom of being. I AM Himalaya. I AM.* [chanted]

“The Summit Lighthouse Sheds Its Radiance o’er All the World to Manifest as Pearls of Wisdom.” This previously unpublished dictation by **Himalaya** was delivered by the Messenger of the Great White Brotherhood Elizabeth Clare Prophet on **Sunday, April 1, 1979**, at Camelot, Los Angeles County, California. (1) Rev. 4:6–8. (2) When Himalaya says “**we four**,” he is apparently referring to himself along with the masters who are standing with him—Vaivasvata, the God and Goddess Meru, and the Great Divine Director. Himalaya and these masters are the Manus, respectively, of the fourth, fifth, sixth and seventh root races—groups of souls who embody together and have a unique archetypal pattern, divine plan and mission to fulfill on earth. The first three root races have fulfilled their divine plan and ascended. (3) At 4:00 a.m. on March 28, 1979, there was a mechanical failure in Unit 2 of the Three Mile Island nuclear power plant near **Harrisburg**, Pennsylvania. Along with equipment malfunctions and human mistakes in the following hours, this resulted in a release of radioactive gas from the core into the containment vessel of the reactor building. Some of this gas leaked into the atmosphere; however, threats to human health were said to be minimal. The reactor was brought under control, but Unit 2 was so damaged, with more than 50 percent of the core melted down, that it was rendered unusable. This accident was considered to be the most serious in the history of the United States nuclear power generating industry.

## Beloved Lord Himalaya

Beloved mighty victorious Presence of God, I AM in me, my very own beloved Holy Christ Self, Holy Christ Selves of all mankind, beloved Lord Himalaya, beloved Guru Ma and Lanello, the entire Spirit of the Great White Brotherhood and the World Mother, elemental life—fire, air, water, and earth! In thy name, by and through the magnetic power of the immortal, victorious threefold flame of Truth within my heart and the heart of God in the Great Central Sun, I decree:

1. Benign and precious is thy flame,  
Blessed Himalaya divine;  
Pure and holy is thy name,  
Blue-lotus master mine.
2. Come and teach me by Wisdom’s power  
How to love God every hour,  
How to magnify Christ-power  
And God-victory manifest.
3. Let me sit before thy throne,  
Wholly centered in God alone,  
And absorb thy holy tone,  
Soundless wonder now made known.
4. I AM calling now to thee,  
Help me gain my Victory;  
Let my very soul go free,  
Daily, hourly like thee to be.
5. Blue-lotus flame shining bright  
In good will’s divine delight,  
Shed thy beams through human night  
Till all is purest Light.
6. Himalaya, come and remain  
In my heart’s blue-lotus flame,  
By the power of God’s own name,  
I AM Presence in me reign.

And in full Faith I consciously accept this manifest, manifest, manifest! (3x) right here and now with full Power, eternally sustained, all-powerfully active, ever expanding, and world enfolding until all are wholly ascended in the Light and free!

Beloved I AM! Beloved I AM! Beloved I AM!\*
