

*The Beloved Goddess of Purity*

## The New Order of the Ascension Flame Part 2

Beloved ones, there was once an ancient temple where I served with the Great Divine Director. It was a temple consecrated to the divine plan and the initiation of souls within that divine plan according to the light of purity. And we conceived that Mother purity, the flame which I bore, would be the instrument of discipline and teaching and love and a vast and deep understanding of the Path. And the Father light of the Great Divine Director would be the sealing within each initiate of the great blueprint—the master blueprint of a cosmos and of each individual microcosm within that macrocosm, each individual soul suspended in a universe that is God.

## The New Order of the Ascension Flame

### Part 2

Beloved ones, there was once an ancient temple where I served with the Great Divine Director. It was a temple consecrated to the divine plan and the initiation of souls within that divine plan according to the light of purity. And we conceived that Mother purity, the flame which I bore, would be the instrument of discipline and teaching and love and a vast and deep understanding of the Path. And the Father light of the Great Divine Director would be the sealing within each initiate of the great blueprint—the master blueprint of a cosmos and of each individual microcosm within that macrocosm, each individual soul suspended in a universe that is God. That temple, not very far from here, was the place where we sustained the light. It was about a quarter of a million years ago.

I come, then, to awaken within quite a number of your band that you were there with us. And as we made the choice to enter in and to accelerate light, you made the choice to go out into the world to seek your fortune, as they say, by other means and byways. And thus, at the conclusion of the dispensation of that great temple, which was even a physical temple

of Lemuria, we took our ascension. And you, my beloved, have taken another quarter of a million years to come to the place where life and all of the great configurations of heaven—the great ascended masters with their stellar bodies, their causal bodies—are once again in position to offer to you the path of initiation.

Now, within your inner being you have been taken by us, in inner octaves of light, to behold the consequences of free choice. God does not condemn free choice. He is the author of free choice and the sponsor of souls, some who would tarry a little longer in time and space to discover the meaning of their own devices and their own solutions to various problems of being and of life.

And thus, as a matter of cosmic history and to show you what has been a part of the evolution of the earth, of which you have been a part for so long, I have brought this record to your outer attention. It is not with the idea of frightening you but only to give you a sense of co-measurement, that you may understand that the soul's various embodiments are to the soul as the twinkling of an eye.

### Decide Whether You Will Remain with Me This Time

These incarnations, while they are experienced, take on the frame of time and space. They are compartmentalized into the hours of the day and the seasons of the year, and they appear long and hard. But once they are over, it is as though the spring of life, the coiled spring, contracts into almost a flat sphere. And that circle that is the collapsing of the experience becomes like a phonograph record. The entire recording of a life on a single disc, a compressed coil of energy, now is filed and now becomes a part of your history.

You have many, many such discs. And these are kept on file so that you can review your own history and measure the

marks that you have made as footprints in the earth and as marks upon souls whom you have inspired to the path of the ascension.

Thus, our coming and our focusing of the light of purity is, in this particular dispensation, the first time since that occurrence. As you meditate upon the meaning of two hundred and fifty thousand years, remember the saying “One day with the Lord is as a thousand years, a thousand years as one day.”<sup>1</sup> Do not try, then, to comprehend the meaning of the cycles of life. But only decide whether you will, this time, remain with me in the inner court of the temple and receive your initiations in purity, as we are given the dispensation to convey them with the Cosmic Christ, the Guru Maitreya and all of the ascended masters. Make your decision, and know also that it is given to you again to leave and to go into the outer world.

Having the perspective that the choices you make today you have made before and you will make again, then draw your own conclusions. And decide whether to postpone the reunion, the bliss of the alchemical marriage, or whether to enter in—not because it is preferable to the experience of your soul but because by your own wholeness you, then, can impart wholeness to the evolutions of an earth.

#### **Clearing the Way for the Coming of the Mother Light**

This year is the turning of a tide. As it is dedicated by the Mother of Mercy, Kuan Yin, to her light of mercy, so too it is dedicated to ascension’s flame, to the Mother flame, and to the bringing of the awareness of that light and that purity to millions of souls. In order to accomplish this goal, we come, we three with Maitreya and ascended masters, pilgrims, filing in with their mighty flames.

Since they have already ascended, they, then, keep the flame of the ascension for initiates of the ascension on earth.

Perhaps they carry a flame for you, my beloved. If they carry your flame, would it not be well for you also to carry your own flame? Now, when you carry your flame because the Law requires your ascension, you may also dedicate that flame to your counterpart behind the Iron Curtain, to souls of light who will also ascend, perhaps by another path. But all paths are the same path of purity’s light.

I come, then, and our coming is made possible by many inner activities of the Law, the ascension which took place during the New Year’s class<sup>2</sup> (a great key to the forward movement of Saint Germain’s plan), and the judgment that has gone forth from the Lord Jesus Christ out of the mouth of his messenger and his disciples. This too has enabled the angels of light to come forth and bind many of the tares into bundles and to remove them from the scene of earth.

And thus, the clearing of the way for the coming of Mother light works together daily with all of the projects and all of the disciplines and the great creative light that you bear, both within the community and in the far-flung centers of light in the cities of America and the world. Wherever there is a Keeper of the Flame, wherever there is a soul of light to whom purity and the ascension is highest gain, is all, there is the acceleration.

#### **The Ascension of a Single Soul Propels the Earth with Greater Sacred Fire**

Do you know, beloved ones, we who beheld the ascension of your own beloved Lanello, in a great ring of fire, observed the dropping of drops of light as his own cosmic consciousness, as that ascension flame. These golden white drops of light fell across the earth as a gentle falling rain. And they fell in chalices—in hearts designated as those who were the succeeding ring of lightbearers who would follow him through

the open door of the central temple of Lemuria. And each drop that fell and burst as a joyous song within the heart gave to those souls of light inspiration, a dedication, a newness of desire to contact God, a new hope, a new faith, a new exhilaration of charity. Why, beloved, the ascension of a single soul is veritably a spiral that propels the earth with greater and greater sacred fire and the living record that as one son has overcome, so can many sons overcome.

Would you care to know how many drops went forth as he ascended? They are beyond the millions, beloved. Beyond millions of souls received a portion of his flame. This, then, will be your joy to proclaim and to transfer in the hour of your own soul's ascension.

If, therefore, you will grasp the reality of making this life your life of victory and of triumph, then consider the years that God has given to you for this life, from this hour through the future. And consider how you can give the most to allow those who follow you to make the contact with your very own living flame. They may not know you by name, but when they contact the record of your good works, of your faith, your meditation, the innermost purity of your heart, they will step upon a crystal of light that will send them higher on the Path. And they will thus be fortified. They will thus enter into a vortex of fire that will accelerate their own light.

Whether your service, then, is known or unknown and your fame sung or unsung, it is the quality of energy and consciousness which you invest in the body of God that is the liberation of souls who come up, up, up, up the spiral of your own accelerating mantle.

### **Let Us Together Go Home**

I AM the Goddess of Purity. I stand with great joy, knowing that the hour has come, once again, of opportunity to

those of you to whom I waved a tearful good-bye when you left our temple—an opportunity now come to many more because you will keep that flame.

Now let us rejoice to be together. Come in white, dressed in white, with candles white. Come in ceremony. Come, then, mindful of the Brotherhood of Mount Shasta and all of the souls of light of Mu, brothers and sisters of your own.

My beloved, you are so very close to that entire history, for you yourselves have been a part of it and this is why you are drawn to Southern California in this hour. You are drawn here because here is the resolution—the transmutation of darkness by light. Here are the scenes you have known before.

I AM the open door of purity. Come, enter in. Come into my heart as I come into your own. And in the divine embrace, let us together go home—home to Alpha and Omega in the Om that is not far, far away but here and now, to be lived in the hour, in this octave, in this very manifestation.

Let us build God's kingdom upon earth in purity. Let us dedicate Camelot to that kingdom. Let us know that the going home of the soul is the going to the higher vibration of purity whereby here, within the physical temple and within the physical body, the perfection of the Law may be perceived and outpictured.

I AM the open door. I AM the open door of purity to be shut no more. I AM the opening of the temple doors. I AM the opening of the heart of each individual soul. I AM the opening of the way. I AM the way of purity and I AM that way within you. Now let us see who will elect to be that way with me, to come that way, to fulfill that way.

Bless you in the rose of peace, the rose of white light that I carry in memory of your soul and its victory.

## Messenger's Invocation:

In the name of the I AM THAT I AM, I call forth the great legions of purity from out the Great Central Sun. I call to the angels of purity and the bands of Gabriel and Hope, beloved Purity and Astrea, beloved Serapis Bey. I call to the mighty legions of seraphim and to beloved Justinus, Captain of Seraphic Bands.

I call for all of the hosts of the LORD. I call to the ascended masters who guard the light of purity in the twelve altars of Lemuria. I call to the mighty cosmic beings of light. I call for the full-gathered momentum of the ascension flame of all who have ascended from this evolution.

We call for the great white light of the Ancient of Days. We bow before the light of the Goddess of Light, the Queen of Light, the Goddess of Purity. We bow before their mighty threefold majestic light of purity and the Father Purity and the Son Purity and the Holy Ghost and purity in the Mother flame of the ascension.

We pour forth our love and gratitude back to the very source of being, back to the Great Central Sun, as we are one in that source, with that source, by the great chain of life that God has vouchsafed to us in the great manifestation of the Gurus of the ages, our blessed ascended masters.

We come before our God as chelas of the Most High. We come before our God willing to be initiates of purity. We place our vessels as a chalice of light. We ask to be filled with the ascension flame and to carry more light. So now receive us, Lord Maitreya, in those initiations to which we give our heart, our head and our hand.

In the name of the light, whose light we are, for which we stand, in the name of the light to whose purpose we have come, we renew our dedication upon the altar of God this day to carry the Holy Grail, to *be* the Holy Grail unto the twelve tribes and all of the nations of the earth, all souls of light. O in joy, blessed legions of purity, give to us the opportunity to *be* thy flaming sword, to *be* thy Holy Grail, to be the communication of the Word.

In the name of the Mother, in the name of the Father, the Son, the Holy Spirit, Amen.

**"The Summit Lighthouse Sheds Its Radiance o'er All the World to Manifest as Pearls of Wisdom."** This previously unpublished dictation by the **Goddess of Purity** was delivered by the Messenger of the Great White Brotherhood Elizabeth Clare Prophet on **Sunday, January 14, 1979**, at Camelot, Los Angeles County, California. Part 1 is published in *Pearls of Wisdom*, vol. 54, no. 13. (1) II Pet. 3:8. (2) On December 29, 1978, Serapis Bey described **the ascension which took place during the New Year's class**: "The priests and priestesses of Mu, initiates within the thirteen temples, are marching the great march of the victory of the Mother. And within Luxor there comes forward now one whom you know and love incarnating that ascension flame, intensifying that ascension flame, intensifying that ascension flame within the heart until the threefold flame itself accelerates and spirals and burns through and becomes an outer, tangible physical focus within the heart—now manifesting within the heart of the messenger as a tangible light of ascension's flame that will arc to all chelas of the Great White Brotherhood in this fourteen-month cycle for a victory unparalleled since the hours of the great acceleration of light on Lemuria. . . . And so the marriage vow is sealed, and the one in eternal life here and now, as Above, so below, is the reinforcement of the ascension flame for each and every one of you. . . . I am determined that you will know who you are because I have set before you an example which your souls now behold—the wedding garment filled with light, a Mother filled with joy, a soul rising in that flame of joy and God-happiness. Your souls, then, witness the ascension of the ascension. Your souls, then, witness the mystery of the mystery, how mighty light can descend in a moment, in an hour. And in the twinkling of an eye, now you see and now you see again a translation of a soul of light. . . . Enter now the one, the crown, the one who stands within the center of that flame receiving light descending from Helios and Vesta and all of the angels beyond the angels of the Great Central Sun. Earth, a solar system, a galaxy of light rises, then, to untold victories as that great demonstration of the assimilation of the soul by God is unto you the great conviction of the flaming rod and the mystery of twin flames, as Above and so below. . . . And therefore sealed within you is the memory of the victory, is the actuality of your participation in that ascension spiral, in that ascension flame. And once you have seen, by the direct presence of your soul, one single soul fill the goal, standing within the altar of Luxor, then you will know forever and forever that you yourself will one day stand in that point, in that place, transmuting all time and space, accelerating into the perfection of eternal life." See Serapis Bey, December 29, 1978, "A Fourteen-Month Cycle of Ascension's Flame: The Soul's Witness of the Ascension Flame Come to Earth in the Person of the One," 2006 *Pearls of Wisdom*, vol. 49, no. 13, pp. 97–103.
