***Sine Wave to the Sun***  
***A Retreat to the Inner Self***

We walk the pathway to the inner temple of Self via the spirals of the sun into the very heart of Being where we are in light and in Spirit. We remember now the promises we made. Each one receives the impression, the memory, the pattern, the strength of that which he must do.

Begin now the spiraling ascent to the heart of the sun.

## Let This Be the Birthday of the King of Kings within Your Heart

### *I Give You the Golden Key of My Heart*

Greetings in the new birth. Greetings in the flame of our oneness.

Friends new and old, friends of the ancient times, the one family of life, so I look upon you as clusters of flowers, as the fragrance of the Mother, come together in a bouquet offered unto the Christ.

And so you bid me welcome. And so I rejoice at the anniversary of the birth of Jesus, and my gratitude flows for your coming, for your presence, and for your keeping of the flame of life and keeping high the torch of the Goddess of Liberty.

A birthday is a time of new beginnings. A birthday is a time to review ancient winnings and also, perhaps, those experiences of the year which were not winnings but perhaps testings of the soul. And so I, too, now having completed that which you call a six-week cycle,<sup>1</sup> stand once again ready to pledge my energies before the Lords of Karma to distribute the holy offering of the teachings of the ascended masters.

I come from Shamballa.<sup>2</sup> I come from the retreat of of

Gautama, where the blessed Lord of the World is preparing for the release of light from the Ancient of Days and the release of the thoughtform for the year 1975. I come, then, with my aura, my pots filled with the oil of gladness of the Buddhic light and of the solicitations of the Buddha for humanity, who require the succor of the Mother flame, of the hosts of light in the coming year. Therefore, I bring greetings in the name of the Lord of the World, who has sponsored our university here in Santa Barbara,<sup>3</sup> where I am also come to tutor the souls long tied to me, souls who have volunteered to carry the light to a world hungry and waiting to be filled.

As I, then, review the accomplishments of the Spirit on this our natal day,<sup>4</sup> I see how many hearts have been kindled with the fires of the Christ, how the babe is being born in the hearts of humanity. I see hearts kindled with the spark of the Buddhic light. And, lo, there is hope, hope in the world for a better tomorrow!

I come as the Good Shepherd tending the flocks. I come to tend your consciousness, to draw that consciousness into alignment with the diamond-shining mind of God. And so it is my deep desire to see the fusion of the diamond light of minds one in the flame, to see a filigree of light, of diamond hearts of Mary, forming a diamond chain mail of protection and perfection throughout the planetary body.

So let each diamond heart and diamond mind consecrated to his will be, then, for the anchoring of the light of far-off worlds. As we begin anew the cycles of the Holy Spirit, so let that discipline of heart (which many of you have acquired, which many of you have rekindled this year) be Morya's thrust for a purpose, be for that quickening that can and shall declare the triumph of the bells ringing in the soul, the triumph of an age and of the golden light of Helios and Vesta.

### The Second Coming of the Christ within You

The council of the Royal Teton surveys the planetary scene, and the world is as a manger with no room for the Christ to be born. And so came Mary and Joseph. So came the Lord of hosts. And the Word was made flesh.<sup>5</sup> And so the celebration of that holy night in this season of the light of winter solstice is for the release of a million billion fragments, dewdrops, splinters of light, that the Word might be born again and again and again.

O Christmas angels, come forth in the flame of Mary! I stand in this place in time and space. I am your Lanello and I come to rock the infant light, the threefold light of Christ within each heart. I come also in the flame of the Mother, for I too am her devotee. And know you not that I also can don the mantle of the World Mother and mother you, one and all. So to be the Mother of the Ark,<sup>6</sup> this is the vow of Mark and so it is my own. So I come to mother the ark of his appearing within you and another ark also, that ark of the covenant that is the law of being.

So I say, let the cosmic consciousness of the newborn Christ be gathered now and focalized and magnetized within your hearts. So let the forcefield of your inner identity be wed to the precipitation of Reality. So let this be the birthday of the King of kings within your heart, and let the Marys of the world magnetize the light of his appearing. And so, let this our birthday be for the commemoration of a new light, a new saviour, a new salvation in the Second Coming of the Christ within your heart.

### I AM Here to Lead You to the Promised One

Mankind face peril and pain. Mankind face also the light of the Promised One. I am here in Spirit. I am here also

incarnate in my own. And as I have told you, I took my leave of this plane according to cosmic design and purpose for many reasons known to the Solar Logoi, one of which, if you will permit me, I should like to restate. It is that I might receive the many souls for whom the harvest is come, many souls called unto the Father, called unto the white-fire core of Being in these latter days.

And therefore, I stand to facilitate the transition of those who are making their way across resurrection spirals and midst the fireworks of the ascension into the presence of the Holy of Holies, a very necessary function. For by the tie, the solar tie of so many souls across the planetary body to my own heart, my presence can make the difference between that transition being victorious in the light, into the octaves of light or, if I were not there, perhaps the tarrying in the astral plane for many. And so, as the light of the activities of ascended masters and unascended ones expands within my heart for the expansion of the teaching, so I am here to take you by the hand, to lead you to that Promised One and that Promised Land.

And therefore, as the council of the Royal Teton looks ahead to the year that is to come as the inauguration of the flame of the Holy Spirit and the cycles of that Spirit,<sup>7</sup> that council does anticipate an increase—an increase of the overshadowing of the presence of the Most High God upon those whose inner commitment is truly to serve the flame of truth, the flame of our oneness and our love.

Some of you have noticed the stepping up of consciousness almost to the point where you have thought that your bodies, your minds could not contain the light. You have noticed the stepping up of consciousness, and so you have seen how the Lord has need of thee, how the Lord desires to transmit to those of you whom I call my friends energies of light, sacred energies of the white light, that you might be the

bearers of the water of the Divine Mother as true Aquarians making the transition of the ages and, so, letting the water of mastery, of alchemy, of the Piscean age from the hand of Jesus become the flow of the light of Aquarius in the hand of Saint Germain.

### **I Bequeath to Each of You the Gift of My Heart**

It was and is my privilege to assist Jesus and Saint Germain in this magnificent work of cycles turning, of worlds turning and of the dawning of a new light. So I bequeath to each and every one of you the gift of my heart on this my birthday, the gift of my heart that is a gift of love, a tiny box. I place it now on the altar where the Holy Child is born within you.

I come as a humble one, my wisdom the gift of the Divine Mother and of the three wise men, my mentors of old. I come to give you the tiny box and, as you know, my anticipation for the opening of the present is perhaps more than your own. For with almost childlike delight, I wait for you to open the box and to find therein the key. For I give to you the golden key of my heart—pure precipitated light from the heart of Helios—a golden key that will unlock for you the way of your own path of enlightenment, the way of your own ascension, but particularly the way of the blueprint.

Do you not know that the blueprint of the soul is intricate? And as the computerlike mind of the I AM Presence unfolds the destiny of a soul, so the outer consciousness requires a key to lock in to that blueprint, to lock in to the manifestation of its immortal destiny.

And so, having noted how on many occasions my friends and disciples of the Christ have found themselves wondering, “What shall I do next? How can I best serve the masters? What is my divine plan?” and having observed how sometimes the plugging in to the light and the plan is an effort because of

the weight of effluvia, I have come, then, with this gift. I have come with this gift that you might preserve a measure of the All-Seeing-Eye, the vision that is required and, in those moments and hours of your soul’s meditation, your soul’s deliberation, that you might take the key from the sacred altar of the heart and then turn the lock of the inner identity, the blueprint of the soul.

So then, you have prayed to be servants of the Most High, to do his will. I come. I come to place my hand in your own. I come to place my hand on your shoulder, to be with you along life’s way that you might know in the days and months ahead—through the trials and tribulations and through the glories of the light peeping through the clouds, sometimes of planetary doom, sometimes of planetary change—that I AM here and I AM there. And to those who call, who will use the key, I will give unfailing guidance, support, assistance. And I will speak to you in the inner recesses of the heart if you will but call, if you will but come together in communion in his name, in the name of the Prince of Peace, whom I serve.

### **God in You Is the Holy Child Aborning**

And so my joy is full that you have filled this house of the Mother;<sup>8</sup> that you have come to celebrate my coming into the world. And so, I am grateful. I am thankful, O God. I am thankful for a victory won. Let that victory be multiplied again and again and again. In this, thy beloved son, thy beloved daughter, in all these here below, these thy children, O Father, it is our prayer that thy Word, thy message to the age, will be projected far and wide by the momentum of Lord Buddha, by the momentum of the World Mother.

So I am here to reinforce my presence and my aura among you, to bring you good cheer, to bring you joy, to bring you the cup of our Lord. I AM forever in the service of the

Christ within you. I AM forever washing the feet of those who are his disciples indeed.

The servant is not greater than his Lord, and therefore I submit the momentum of my causal body unto the Christ within you. I come bearing that gift, that momentum of my mantle, and I attend the birth of the Christ Child this hour. I attend the birth of light in you. And I stand with all mankind, for I AM multiplying the body of the Christ by the fervor of his love, which has become my love.

So may the Electronic Presence of one who walks the earth commemorating the birth of the child, so may that light, that momentum, be at the side of every one, everyone who is born of God. And therefore my Electronic Presence goes with him this night, with Jesus our Lord, to tend the birth, to be superimposed upon all who acknowledge the Christ as the Saviour of the world.

As I am with you, as I in my heart am filled with the love and the awe of the blessed Saviour, so I desire to impart to you that whether in this world or in the next, whatever your plane of consciousness, I AM here and I AM there, and Jesus and Mary and Saint Germain and holy angels, and that the service in humility is our reason for being, our all and our call.

So will you not feel the humbleness of that night. So will you not feel the great empowering of the will of God and the coming of the Holy Spirit and the enlightenment of mankind through his birth.

And will you not take, then, symbolically, as Saint Francis of old,<sup>9</sup> the precious child from the crèche and hold that child to your heart and caress that Holy Child and know that in your hands, which you now raise symbolically, there is truly the Electronic Presence of that infant child, holy, meek and mild. Will you not know that in the consciousness of Francis, so in his devotion, as in your own, that infant child, that holy innocence,

that quality, that purity can precipitate now. And you can behold his face and his eyes and his smile, and you can receive the hope of Mary, of Joseph and of all mankind.

So then, cherish the child, the Holy Child, and know that God in you is that child aborning, that God in all mankind is the coming of the sacred morn.

I extend to you the blessing of the Lord of the World, the mantle of our Lord wrapping the earth in the swaddling garment of the Christ. I extend to you the blessing of my heart. And I say, joy to the world! The Saviour reigns.

I thank you and I bid you a holy, joyous Christmas.

**“The Summit Lighthouse Sheds Its Radiance o’er All the World to Manifest as Pearls of Wisdom.”** This previously unpublished dictation by **Lanello** was delivered by the Messenger of the Great White Brotherhood Elizabeth Clare Prophet on **Tuesday, December 24, 1974**, in Santa Barbara, California. **(1) A six-week cycle** refers to the period of six weeks just before one’s birthday. The messenger Elizabeth Clare Prophet has said that during this time we have an opportunity to transmute the karma that was not transmuted in the previous year. **(2) Shamballa** is Gautama Buddha’s retreat in the East, located over the Gobi Desert in central Asia. In 1981 Gautama established an extension of this retreat, called the Western Shamballa, in the etheric octave over the Heart of the Inner Retreat at the Royal Teton Ranch, Montana. **(3) The university here in Santa Barbara** refers to what is now called Summit University (formerly Ascended Master University). It is a modern-day mystery school founded in 1971 under the direction of the messengers Mark L. Prophet and Elizabeth Clare Prophet. SU currently holds summer retreats at the Royal Teton Ranch in Montana and seminars throughout the year in locations around the world. In the spring of 2013, Summit University inaugurated the SU Online School of Theology and Spiritual Studies, with three major areas of study, each leading to a certificate of completion. These include the Department of Ministerial Studies, the Department of Leadership Studies and the Department of General Studies. Prophet, now the ascended master Lanello, was born on December 24, 1918. (5) John 1:14. (6) In Lanello’s embodiment as Mark Prophet, he was called by some the **Mother of the Ark**, for as the master Kuthumi has said, “He nourished the flame of the ark of the covenant and drew therefrom the eternal message of salvation to God’s chosen people.” (*Pearls of Wisdom*, March 18, 1973) (7) **The year that is to come as the inauguration of the flame of the Holy Spirit.** In a lecture given on January 25, 1977, Elizabeth Clare Prophet said: “Nineteen seventy-five was the year of the Holy Spirit. If we were to put the twentieth century on the Cosmic Clock, we would put 1900 on the twelve o’clock line, 1925 on the three o’clock line, 1950 on the six o’clock line and 1975 on the nine o’clock line. Hence we are in the final quarter of the century, which is the quarter of the Holy Spirit, the quarter when all that has gone before needs to be manifest physically.” (8) **This house of the Mother.** From 1969 to 1983, the Keepers of the Flame in Santa Barbara, California, maintained a Teaching Center as well as a Motherhouse, where this dictation was delivered. (9) **Saint Francis and the Holy Child.** In 1223 Brother Francis prepared a special Christmas celebration. He asked his devout friend John Vellita to set up a living crèche on a steep wooded hill in Greccio. An ox and ass were also brought to the spot, just as at Bethlehem. At midnight on Christmas Eve, the brothers and neighboring people came bearing candles and lighted torches that brilliantly illuminated the night. Together they celebrated a solemn Mass over the crèche; and Francis, with a countenance of supreme compassion and unspeakable joy, delivered a moving sermon on the “Bethlehem Babe.” For a moment, his friend John saw a beautiful infant lying in the manger, appearing almost lifeless. Then he saw Francis step forward and lift the child, who opened his eyes as if waking from a deep sleep and smiled. The vision signified that although Christ had been asleep and forgotten in the hearts of many, he was being brought to life again through the devotion of his servant Francis.
