

Beloved Saint Germain

Electrons Are Points of the Infinite Light of God

*The World Comes Alive because of These Tiny
Electrons Dancing in the Very Body of God*

Part 2

When individuals understand that there is a spiritual perfection whereby the permanent atom of their own identity becomes wholly wedded to that which is spiritual and identifiable with the pattern of Almighty God, then they will understand how the electrons will actually compose not only the permanent atom but the whole body of substance, which is the glory that passes from glory unto glory.¹

When individuals understand this, they will comprehend that they will one day have (as God has) the power to claim and acclaim that which they have manifested, which are permanent electrons within their own forcefield.

When the Masters Speak How to Study a Dictation

In this short but powerful Summit University course, you will first learn how and why the ascended masters speak to us in the form of what are called “dictations.”

Then, follow the easy step-by-step guide on how to listen to and study their dictations. With greater insight, you can begin applying their teaching to your daily life.

Listen and Learn Happy New Year!

Electrons Are Points of the Infinite Light of God

*The World Comes Alive because of These Tiny
Electrons Dancing in the Very Body of God*

Part 2

When individuals understand that there is a spiritual perfection whereby the permanent atom of their own identity becomes wholly wedded to that which is spiritual and identifiable with the pattern of Almighty God, then they will understand how the electrons will actually compose not only the permanent atom but the whole body of substance, which is the glory that passes from glory unto glory.¹

When individuals understand this, they will comprehend that they will one day have (as God has) the power to claim and acclaim that which they have manifested, which are permanent electrons within their own forcefield. These electrons will not be required to go back to the Great Central Sun for repolarization. *For the great God flame within the heart of each individual will repolarize that substance right within the individual himself!*

This is the message I am bringing to you today. It is to show you that the qualities of repolarization, of magnification, of beauty

Electrons Are Points of the Infinite Light of God

338

and of every God-quality must exist within the domain of each individual before that individual can be given, with absolute certitude, the fullness of that eternal life that he already has at inner levels from Almighty God.

This is the secret of the Tree of Life² when it is rightly understood. It shows clearly that the only reason men have been denied life (that is, permanent, eternal life even in form) is because they have not yet proven their worth and demonstrated their ability to hold the electronic substance around themselves so that they can *renew* that substance as well as be renewed by it.

For life does not demand of man a little bit of himself, but life demands all of himself! And individuals should understand clearly that as the electrons give all of themselves unto mankind for the sustainment of life within man, man must give all of his spiritual energy to the electrons in order to sustain and support them!

And this is indeed a duality of expression where there is a flow created between the positive and negative poles of man's being, thus sustaining the fohat in its own dimensions. This flow enables men to pass from death unto life, to move forward through the great concentric rings of cosmic advancement to where they become filled and running over with the power of the abundant life.

There is more, much more, that I could reveal. But I will give you, this afternoon, that which I think will inspire you to understand (through assimilation and digestion) that in the intricate patterns of universal law there is conveyed to the individual identity the means whereby that individual *can know his own freedom*; and in finding his own freedom, he can sustain it by the laws of God henceforth and forever.

And thus the banner of freedom will be raised over his own house forever, and this banner will be not only mine,

but thine. For we are one in our purposes, electing to pursue this course because it is the only *sane* course, the only *just* course, the only *right* course, and the only *possible* course whereby a man can find his eternal life and live forever as God intends.

Let individuals pursue other courses, if they will. They will always come to a blind alley, to a *bête noire*,* where they will find that there is nothing whatsoever that is interesting to them. And they will then turn another way and back off from that which does not provide interest to their lifestream.

But when they come to the real and true spiritual path and the pathway of freedom—by the infinite violet fire from God’s own heart and by the Christ consciousness which raises them up, even as Moses raised the serpent in the wilderness³—so they will find that the serpentine force [the Kundalini]⁴ within themselves will be raised up before all men and “will draw all men unto me.”⁵ It will draw all men unto the Christ light because the electronic substance within that one *is a radiant fire* which blazes forth and attracts men, not as moths to a flame but as witnesses to that which is within themselves.

This is a potential for all men, which spells freedom and the end to all bondage, all despair, all vicissitudes. It is a recognition of the Christ Mass eternal that lights the heavenly skies everywhere and floods the mind with new hope and the courage to face and victoriously overcome all outer conditions by the power of the inner light. This inner light now blazes forth and will always blaze forth to those who will recognize it, accept it, and gladly use it for their own freedom and for their service to mankind in this hour, when the world need is so great and so frightful.

I want to tell you, precious ones, that mankind today have responded to a small portion of the Karmic Board’s decision.⁶

* *bête noire*: a person or thing strongly detested or avoided

And there is a certain activity astirring within the hearts of men concerning the use and employment of the elementals in order to spur individuals to recognize that all is not well upon the planetary body and that mankind have not fulfilled their destiny or the right path. And in the thousands and thousands of years that have raised civilization to a pinnacle of scientific achievement, men yet remain in what we shall term the dark ages of mankind’s spiritual life, fulfilling to a very small measure that portion of justice which is taught by the golden rule: “Whatsoever ye would that men should do to you, do ye even so to them.”⁷

Again and again, as samples of human karma are brought before the Karmic Board for the weighing, we say as in the days of old, “Thou hast been weighed in the balances and found wanting.”⁸ Again and again we have witnessed men in their awful, stifling selfishness, which actually shrivels the soul. We have witnessed how they have failed to comprehend [the spiritual life] and how they understand only that which seems to benefit and commend their own mortal identity.

We therefore say to you today: Free yourselves to the God-intent. Free yourselves to that power which will give you immortal and eternal victory. Do not permit yourselves to be held in control by any lesser manifestation. Understand that if that manifestation comes through yourself, it is no more virtuous than if it comes through another.

That which is actually producing bondage in your world (wherever it comes from) should be stopped and halted, then and there. And you should accept in its place that which means your infinite freedom, your capacity to do the will of God, and your capacity to overcome. For in that capacity is your victory. And when you attain your victory, you assist every man, woman and child upon this planet to attain theirs.

Won't you assist me as we today send forth rays of illumination into the world to raise mankind yet further?

Ladies and gentlemen of the heart of God, in his holy name I thank you. And I blaze the violet fire of freedom through you. I call for your freedom and your release from conditions that have bound you. I call for the assistance of the cosmic host and the angelic host to set you free. I call for your minds to be clear and pure, that the cosmic fire may leap there, secure from all attacks of mortal thought and reason.

I say, this is the season of your victory! It is the season when Christ-power is magnified upon the planet! Take advantage of every impetus that pushes you forward. And remember that we are not only on your side but that you, I hope, are also on ours.

I thank you in the name of God and his precious freedom.

"The Summit Lighthouse Sheds Its Radiance o'er All the World to Manifest as Pearls of Wisdom." This previously unpublished dictation by **Saint Germain** was delivered by the Messenger of the Great White Brotherhood Mark L. Prophet on **Sunday, December 4, 1966**, at La Tourelle, Colorado Springs, Colorado. [N.B. Bracketed words have been added for clarity in the written word.] Part 1 of this *Pearl of Wisdom* is published in this volume, no. 47. (1) II Cor. 3:18. (2) In the early decades of the teachings of the ascended masters, the **Tree of Life** was equated with the I AM Presence and the causal body. On June 26, 1992, the messenger Elizabeth Clare Prophet delivered the lecture "Keys from Judaism: The Kabbalah and the Temple of Man," at *FREEDOM 1992: Joy in the Heart*. El Morya instructed that the diagram of the Tree of Life of the Kabbalah be superimposed over the Tree of Life of the Chart of Your Divine Self. The messenger explained that in the Kabbalah, the sefirot are the ten aspects of God's being that manifest from Ein Sof ("the Infinite"). The Kabbalists' diagram of the sefirot is a blueprint for divine and human action and interaction. Keter, the Crown, which is the highest sefirah on the diagram, correlates to the I AM Presence. The messenger said, "What we understand in this Chart of Your Divine Self, which we also called the Tree of Life, even as the diagram of the Kabbalah is called the Tree of Life, is that the point of

light which is I AM THAT I AM is the point of the release of light of Ein Sof." (See also Gen. 2:9; 3:22, 24; Rev. 2:7; 22:2, 14.) (3) **Moses raised the serpent in the wilderness.** Num. 21:8, 9; John 3:14. (4) Saint Germain is referring to the **Kundalini** (Sanskrit for "coiled-up serpent" or "snake"). It is also called "serpent power" or "serpent fire" because this coiled energy in latency at the base-of-the-spine chakra, focus of the Mother flame, is serpentine in appearance. The base chakra is the seal of the seed atom; it is the negative polarity in Matter of the positive Spirit-fire that descends from the I AM Presence to the heart chakra. When the sacred fire of the Kundalini, the light of the Divine Mother, is awakened (through specific yogic techniques, spiritual discipline or intense love of God) it begins to ascend the spinal column through the channels of the *ida*, *pingala*, and *sushumna*, penetrating, activating, and nourishing each of the chakras from the base to the crown. The Kundalini is the life force, the Mother energy which animates the body and mind. On February 27, 1988, the messenger Elizabeth Clare Prophet instructed that Saint Germain is the sponsoring master for the raising of this Kundalini energy. When the base chakra and the Kundalini are mastered, they become the vessels for the ascension flame in the one preparing for this initiation. (5) John 12:32. (6) **The Karmic Board's decision.** On November 5, 1966, the Great Divine Director, representing the Karmic Board, said: "It is not the will of God or the ascended masters' [will] to permit the downfall of society or of the world of form, but we want you to know that the accumulation and accretion [of negative forces] has risen higher than ever before in history. . . . Conditions in the world today have reached a point where the Karmic Board has withdrawn all restraint from the beings of the elements. This means that the mankind of the earth today do not know from one minute to the next just what the elementals will do. . . . Therefore, we sound forth tonight the edict that unless mankind shall change and correct and mend some of the terrible flaws now existent in society, certainly the elementals will be unable to hold back the tide of human creation which now stands behind them, held in the name of cosmic mercy. . . . We desire that you shall call for the walls of Jericho of human creation to fall down. We desire that you shall call for mankind to become illumined to the spiritual power that is now rising today to great cosmic heights upon this planet. . . . Because mankind are not accepting that spiritual power but are rejecting it, it is breaking out in all sorts of disturbances upon this planet. When you call . . . solemnly to Almighty God for a removal of the cause and core of mankind's recalcitrant and rebellious attitude to the Spirit of Almighty God, you will be doing the specific thing which we have decided now should be done. . . . This is a solemn moment; and I am calling this to your attention so that you will recognize that there is something that you can do, and that is to continue to call for the awakening of mankind." (7) Matt. 7:12. (8) Dan. 5:27.

Song of Thanksgiving
(In honor of Saint Germain)

My beloved I AM Presence
Grateful am I now for thee
Flooding forth Life's perfect essence
Setting all the earth now free.
Let us see thyself now clearly
Rend, O rend the human veil
Bless the masters we love dearly
By their love God does prevail.

Thank thee for the air we're breathing
Thanks for earth and sea and sky
Thank thee for the many blessings
Men so thoughtlessly pass by.
Thank thee for a heart that's beating
Thanks for home and comforts, too
Thanks for perfect sight and hearing
All my world dost thou renew.

Thank thee for the blessed sunshine
Filling all our worlds with cheer
Thank thee for the elementals
And the friends we hold so dear.
Thank thee for Love's great forgiveness
Thanks for loving mercy, too
Thanks for God's great gift of healing
Thanks, O thanks for patience true.

Thank thee for our native country
Blest America, the free
Lift her people out of error
Raise their consciousness to thee.

(continued)

Hold them in the heart of Freedom
Seal them in his violet flame
Purify their homes and families
Through the love of Saint Germain.

My beloved I AM Presence
Grateful am I now for thee
Take my body, mind, and spirit
Take the heart and soul of me.
Make of me thy perfect chalice
Messenger of love and peace
By the Light of God within me
Give ascension's sweet release.*

*Melody: hymn "What a friend we have in Jesus" by Charles C. Converse
This song is printed in the *Book of Hymns and Songs* (The Summit Lighthouse), no. 48.
