

The Release of a Spiral of Love

I AM the Buddha of the Flame. I enter the flame of your heart, and I have come to stay within the flame so that a portion of myself might be thyself in form and formlessness. I come with a thunder of the sun in the beauteous doorway of forever that swings wide open for everyone.

I come in the hour of the Taurus cycle, the Taurus victor. I come as the builder of the temple of the New Age. I come to lay the foundation of the culture of the Mother, the foundation that is laid, the foundation of the Law and the teaching within you, each one.

I come in the gratitude of love, the victor of the light of Leo. I come with gratitude that you have come, that you have responded to my call given through the Mother in that great hall when I spoke on New Year's Eve to call your soul to come fearlessly, fearlessly into the light of flame.¹

You have been chosen from the Beginning to be disciples of the Buddha, and I am grateful that from the Beginning unto the Ending you have provided the cradle for the Buddha to be born in humanity, in the soul Sumedha,² the Buddha born to be the victory of the light of purity and purity's glow.

I AM the Buddha. I come in the light, the peace, and the awareness of the hierarchy of Scorpio. I come with a vision of

the victory and of a future vast—vast in light, in power, and in joy through the disciples of the Buddha who have claimed the flame of desirelessness, of nonattachment, of selflessness. These are the victors of the light of the All-Seeing Eye of God in whose quarter [of Summit University] the dispensation was given by the Lords of Karma for the deprogramming of souls of mankind of all programming of the false teachers and their false doctrine and their dogma.³

So in you is the clearing fulfilled. And back to the first embodiment in Matter and the first compromise with error, there has been anchored within you a spiral of the clearing, of the demagnetization. And now it remains only for your free will to take that spiral, to seal it, to become it, to fulfill it.

The choice to be the Buddha is the choice to ratify the blessings that have been given, the choice to take the coils of the teaching and to let them be fired in your very bones and sinews, in your very chakras. These coils of light—as law and teaching, as love and presence of the Lord—are around you, and you are yet in the state of the assimilation, the absorption of the mind of Buddha and of the love and the wholeness of the Mother.

And therefore let the coming days be a ratification of the Law, an assimilation of the jewels of the Buddha—jewels in the chakras, spirals in the four lower bodies. Let it come to pass that this absorption of all that is holy as right mindfulness and the awareness of the One will make of you gods and goddesses 'neath the sun.

So let the sealing and the gelling of the light we have offered be in you the anchoring point for my coming, my coming quietly in the thunder of the sun to all whom you meet. So let a portion of myself be conveyed from your heart, where a portion of myself will be thyself as long as you will *will* to be the Buddha where you are.

I come in the light of Aquarius. I come in the honor of

bearing the flame of Saint Germain. I come to seal the cross of love.⁴ I come to seal the cross of love as fulfillment of the Law, and therefore I bring the token of the majesty of the hierarchies of Aquarius and Taurus and Leo and Scorpio that you might be sealed in the compassion of the Buddha.

And without the wisdom, the teaching, and the law of the Buddha, you would not have the capacity to carry the love. For by the brittleness of the intellect and of the mentality of the lesser self, love as the infusion of grace, love as the absorption of the soul of God cannot take place within the souls of chelas. And therefore my gift to you this day from the city of righteousness,⁵ from my very heart flame, is a gift for the recycling of all of the energies of cosmos for a positive spiral of love—love as the victory, love as the Law, love as gratitude and the All-Seeing Eye, love as the mastery of creativity, love as the ushering in of a golden age of the Buddha and the Mother yet to be.

Now let us see that the Fall of man was the fall in the Taurus cycle of disobedience. And in their stubbornness and their willfulness and their right to independence outside of the being of God, the fallen ones, the archdeceivers, initiated a negative spiral of love to pervert all phases of love—love as sacred fire, as bond of communion, as Holy Spirit, as the essence of the fulfillment of the Father-Mother God; love as the movement of the spheres, as the fusion of the spheres, love as God becoming man and man becoming God.

We see, then, that in all the wiles and the diatribes and the philosophies of the fallen ones, there at the foundation is this negative spiral of selfishness—selfishness that becomes all manner of conceit and deceit, selfishness asserting the self and in so doing disobeying the Self that is God. Now it is up to the disciples of the Buddha to initiate a cosmic momentum of love, a positive spiral of love that will reverse

the entire sequence of events that began as a seed of pride and ambition in the very soul of the Fallen One.⁶

Let it be, then. For I have taken the flame of Taurus as my own, as my celebration of the light. Let the Wesak festival be the festival of love between the Elohim and elementals and Christed ones Above and below, of the archangels and angels, as the kingdoms of God and of his Christ in the Trinity of manifestation come into balance in Matter as they are in Spirit. Love, then—the love that we impart—is a spiral of grandiose design. It is a spiral whereby the threefold flame of the Spirit is lowered into Mater.

Let the sounding of the soundless sound, then, be for the transfer by the arc of our love, of this spiral of my love becoming the spiral of thy love. And let your heart burst, then, with the mastery of love, especially on the day of the moon, the Monday, when love must be the exercise of courage and patience as the twin flames of Alpha and Omega. Monday is the day when the children of the Buddha take dominion over the earth and over the cycles of the moon and of Mars. It is the day when most among mankind fall beneath the weight of the negative spiral of the fallen ones.

Because you have given yourself to be the Self of the Buddha and the Mother—by your vote, by your presence, by your quickening through obedience—you have enabled me to initiate this spiral below as Above. Within you and through you, that which was begun by Sanat Kumara is to be fulfilled in this age.⁷

Let your love be the discipline of the self in the law of love. Let it not be self-indulgence or self-pity but the crown of the Mother resting upon your head for a moment in time and space, as angels of the Buddha come to the place where you have consecrated the crown of life to be the halo of the Cosmic Virgin.

So, then, our increment of light has been fulfilled victoriously, and the eighth ray of integration has been for this one key, this key of love, so that the key of the initiation of the love of the Buddha might be transferred from the octaves of heaven to the octaves of earth.

And now is the moment when we have found, after thousands and thousands of years, that a certain number [of souls], a number required by the law of the Lords of Karma, has stayed unto the end to fulfill a cycle so that they might bear the initiation of that spiral that will reverse the entire fall of man and of angels and the imprisonment of elemental life.

From Shamballa⁸ and from the Royal Teton Retreat,⁹ I shall remain the custodian of the grace that I shall impart to you this day. I shall maintain my contact, my thread of contact in a more than ordinary way. For I AM strengthening the thread to your hearts with the energies of your own devotion. I take the distillations of your perseverance, of your surrender and your sacrifice, of your diligence in the Law.

And so you have, then, from my heart, a thread that is no longer a thread but is a cord that is strong and true, a cord that will give you day by day an additional increment of this impetus of love so that you might day by day increase the momentum of this spiral of love, which now begun, now initiated from out the Great Central Sun, will not be turned back, will not be reversed, but will fulfill the Word out of which it has come. And that Word is the Word of Alpha and Omega from out the Great Central Sun. That Word will not return unto the LORD God void¹⁰ but it will fulfill, it will bear the fruit that the LORD God has designated this day.

And therefore, for the reversing of the spirals of hatred and the hatred of all Satanism and of the Fallen One, we release the spiral of love for the reversing of the energies of black magic and the black magician, for the reversing of the

energies of witchcraft and of all perverse uses of the Mother light. For the reversing of the misuses of the halo of the Buddha, we release the spiral of love as an initiation from your heart, reversing your own willfulness and pride and ambition, reversing all disobedience of the inner law of life.

This is real, this flame I come to seal within you. This is the flame, the very Presence of the living God that is able to heal all mankind of their goings out of the way of the inner law of being.

This is a storehouse of love. It is from the causal body of the Buddhas, the many who have gone before, and from the causal body of the Cosmic Virgin. It is the abundance of the joy of Lanello. It is the bubbling brook and the laughter and the "Ho, ho, ho" of his consciousness as he stands among you, as he now raises up the light of the mission of the victory, the very living presence of the light in the midst of the greatest darkness.

The twinkling of the eye is the gratitude, the expression of thankfulness again and again that does indeed increase the flow of light through the heart chakra even as you increase the flow of the wellspring of life within you by coming to that well and drawing the water and drawing again, increasing the flow of the great River of Life, the crystal water, clear and pure and sparkling.

So this spiral of love is the joy, the fire of the heart that will keep this windmill of the cross of love turning, turning, and turning by the impetus of the Mother's joy. And so this spiral, the positive spiral of love fulfilled in the all-seeing vision of victory, will turn again for the manifestation of the Temple of Life, of the perfection of the saints, of the expansion of the movement of those who call themselves chelas of the ascended masters.

Let the whirling of the spiral now be. Let it be anchored in this moment by angels of the Buddha, anchored within your threefold flame, anchored within your flame of love. Let it turn and turn. Let it be the spiraling of the Central Sun Magnet. May you feel, now, the dominion of love, the very same dominion of the Sons and Daughters of the Dominion of the Water Element.¹¹

Let love reign triumphant. Let it be the foundation of the Church Universal and Triumphant. For true love is purity. It is the fulfillment of the victory of the Law without compromise. It is the flame that will overcome by the power of the Father and the Son all that has been put abroad in the land and across the planes of Mater to distort, to contaminate, and to put out the light of the Christ.

So we have anchored our love, and so you are the emissaries of the Buddhist light. Let not the energies of the condemnation of the fallen ones, who behold your victory, compromise this one attunement. This is the gem of the Buddha. It is the greatest gem of all. It is the gem of love—love that will triumph in your life, love that will make you free from all sin and every form of strife and give you the impetus to convey a flame. And the flame that you convey will be the flame of the two witnesses, of Christ, of Buddha, and of Mother. And by the conveyance of the flame that is God's love burning within you, you will have the gift of the Holy Spirit that is the gift of the conversion of souls in the light of Jesus Christ.

I AM the Buddha, the servant of the Most High God and the servant forevermore of the light of love within you.

From Shamballa, I AM the keeper of your flame. From your heart, will you be the keeper of my flame?

[Audience responds, "Yes."]

"The Summit Lighthouse Sheds Its Radiance o'er All the World to Manifest as Pearls of Wisdom."

This previously unpublished dictation by **Gautama Buddha** was delivered by the Messenger of the Great White Brotherhood Elizabeth Clare Prophet on **Friday, March 26, 1976**, at the conclusion of the winter quarter of Summit University, sponsored by Gautama Buddha, held at La Tourelle, Colorado Springs, Colorado. [N.B. Bracketed words have been added for clarity in the written word.] **(1) When I spoke on New Year's Eve.** In a dictation given on December 31, 1975, Gautama Buddha explained: "The action of the flow of light of Mother rising through the spine and upon the spinal altar to the crown is an activation of the mind of God within you. It is necessary that we have devotees who are willing to raise that energy for the opening of the crown. This is why I am coming to Summit University—for the holy anointing of those whom I have called to be those who will be illumined in the crown and thereby be worthy to wear the crown of Buddha and the crown of Mother." See Gautama Buddha, *Pearls of Wisdom*, vol. 55, no. 1, January 1, 2012. **(2) The soul Sumedha.** Sumedha was a previous embodiment of Gautama Buddha. The Buddha Dipamkara prophesied that Sumedha would indeed become a Buddha. And, unlike other souls, Sumedha accepted his God-ordained destiny, his responsibility to become a Buddha. See Elizabeth Clare Prophet, *Quietly Comes the Buddha: Awakening Your Inner Buddha-Nature*, chaps. 3, 4; available at <http://Store.SummitLighthouse.org>. **(3) The dispensation was given.** Gautama is referring to a dispensation announced in "An Exposé of False Teachings," which were published as a series of *Pearls of Wisdom* released in 1976 by Kuthumi and the Brothers of the Golden Robe (currently unavailable). In this series Kuthumi exposed false teachers, their teachings, and their false initiations. In *Pearl VIII*, released on February 22, 1976, Kuthumi wrote: "Therefore I make known to you the announcement of beloved El Morya that the dispensation has been given to the Mother of the Flame to make the invocations to the Most High God for and on behalf of all who have knowingly or unknowingly, willingly or unwillingly, entered into the initiations of the false hierarchy. . . . Physical contact is necessary for us to undo, through a purified vessel, that which has been done. Those who attend Summit University will receive this transfer of light. . . . Others will be cut free of the initiations of the fallen ones at conferences and seminars at scheduled periods of initiations." This initiation, called Kuthumi's third-eye blessing, is still given at every Summit University seminar. **(4) The cross of love** is the pink cross formed by the solar hierarchies of love and pictured on the cosmic clock as the cross made by the one-seven and four-ten lines. The virtues noted on these lines are God-love, God-gratitude, God-obedience and God-vision. The masters who energize the action of love on these lines are Saint Germain, the Goddess of Liberty, God-Obedience (Godfre), and Cyclopea. These masters correspond to the hierarchies of Aquarius, Leo, Taurus, and Scorpio.

This dictation marked the sealing of the students of Summit University in the pink cross at the close of winter quarter in Colorado Springs. (5) Isa. 1:26. (6) **The Fallen One.** This refers to Lucifer (light-bearer) who attained to the rank of archangel and fell from grace through pride, ego, ambition, and the desire to be above the sons of God and the Elohim (Isa. 14:12–17). When Lucifer rebelled, he and a third of his angels were cast out of heaven into the earth by Archangel Michael (Rev. 12:7–12), where they were confined to the four planes of matter and where they continued to make war against the children of God. Lucifer was remanded to the Court of the Sacred Fire on Sirius, where he stood trial before the Four and Twenty Elders. He went through the second death on April 26, 1975. For further information on Lucifer and the Luciferian rebellion, see *The Great White Brotherhood in the Culture, History and Religion of America*, pp. 254–62; *The Path of Self-Transformation*, pp. 49–51, and *The Path of Christ or Antichrist*, pp. 164–68. See ordering information in note 2 above. (7) **That which was begun by Sanat Kumara.** This may be referring to Sanat Kumara's mission on planet Earth. Long ago Sanat Kumara came to Earth when all light had gone out in her evolutions and there was not a single individual on the planet who gave adoration to the God Presence or the Inner Buddha. Sanat Kumara was accompanied on this mission by a band of one hundred and forty-four thousand souls of light who, with him, had volunteered to keep the flame of life on behalf of earth's people. This they vowed to do until the children of God, who had been turned away from their First Love by fallen angels, would respond to the love of God and turn once again to serve their mighty I AM Presence. (8) **Shamballa** is the ancient home of Sanat Kumara and Gautama Buddha, located in the etheric realm over the Gobi Desert in China. This retreat, once physical, has since been withdrawn to the etheric octave, or heaven-world. In 1981 Gautama established an extension of this retreat, called the Western Shamballa, which is in the etheric octave over the Heart of the Inner Retreat at the Royal Teton Ranch, Montana. (9) **Royal Teton Retreat.** See *Pearl* no. 9, this volume, p. 74, n. 1. (10) Isa. 5:11. (11) **The Order of Sons and Daughters of Dominion of the Water Element** was founded by Mother Mary in 1972 for those who would elect to master energy in motion, or the emotions. It was a spiritual order for men and women pledged to the service of the Mother through their vows to take dominion over the elements, the astral plane, and lunar energies, in order to gain self-mastery in matter. This holy order has been inactive since the 1980s.

*This refers to Sanat Kumara, who held the office of Lord of the World until January 1, 1956, when his disciple, Gautama Buddha, assumed that position, thus "freeing" Sanat Kumara to return to his home on Venus which he had left centuries ago to keep the flame for Earth at her darkest hour. Sanat Kumara now holds the title of Regent of the World.
