### **The Path of the Great Synthesis**

Come, devotees of the light, and see that this precipitation flame is unto you the alchemy, the key, the light that will release all those who have been placed in valleys of separation, subterranean levels of consciousness whereby they are polarized here and there to the dark stars of the appearing of the fallen ones. And therefore there is schism, there is separation, there is shadow, and there seem to be many ways that lead to God.

Indeed, it is considered the height of philosophical understanding to be tolerant of these many ways and many teachers. ## The Path of the Great Synthesis: The One Whom We Call Guru Ma

I AM in the light of the Holy of Holies, where Father and Mother consort as the one light of a cosmos.

My Father and yours, our Mother, have sent me to you to tell you of the law that is now manifest East and West as the great synthesis of life, the coming together of the rays of the sun into one light, one understanding, one bread that is broken that is shared by the evolutions of lightbearers on earth.

I am so very happy to be in the Royal Teton Retreat, for my children and the children of Alpha and Omega have come to the West to incarnate the Word, to bring the light of wisdom's flame and of impulse of Father's name here to be interpreted and interpenetrated by Mother's love. Above, below, the fullness of that love is known today—*this* day, *this* age, *this* century!

So is our sponsorship of the feminine principle in all life, and we do not neglect fathers and children when we send forth the Mother light. For father and child alike are devotees of Mother, even as we of the ascended hosts won our eternal freedom by our devotion to God as Mother.

For we knew in our evolution that if we would place our hand in the hand of Mother, she would take us to the Father—a no surer or more direct route to the throne of grace

*The Path of the Great Synthesis: the One Whom We Call Guru Ma* 14

than that which is sponsored by the Mother, whose love is the transmutation of our sin and frailty, who overlooks our naughtiness and plays with us in her frolicsome ways and becomes herself in our midst as our playmate, our little girl whom we then carry aloft. And then we can become the champion of the Mother, for she has become to us the cosmic one, the intercessor in life, our mother, sister, wife, our cosmic one, our daughter, and our little child.

Now, then, by the momentum and the multiplication of the momentum of all devotion to the Mother East and West—from the ancient era of Mu, to Atlantis, to all the way that the pilgrims have trod—there comes the great synthesis of light whereby the understanding of all that the gurus have brought, of all that they have taught, is become the one light of the noonday sun.

Have you stood in the light of the noonday to perceive separate rays or separate paths? Aye, you have not! For the light of the noonday, representing the rise of the Mother to the zenith, is that focalization of the fullness of God consciousness where all rays and all paths disappear in the one light of the Mother's rejoicing, of her return to the heart of the Father. Therefore a Son is born. Therefore a Christ in you salutes the morn, the noon, and the eventide.

This day, then, I AM come in the fullness of all of the gurus you have known and those whom you have not known in order to proclaim to you the great synthesis of our love, our wisdom, and the power that God has given unto us. And in this synthesis, anchored now in the one whom we call Guru Ma, there is come to earth the alchemy of the one light and the one way and the unity of being that swallows up duality, even as the serpent swallowing its tail.

Let there be, then, a fearlessness and a forwardness as children of the One come forward to claim the eternal

teaching that is the liberation of all light within the body temple until you become that living Son of Righteousness and the fullness of the Law and the sign of the coming of the Son of man here and now—you, the One, the True, the Inner Light.

Your vow Above, below, has sealed the eternal seal. Let the seal of Alpha and Omega, then, be sealed in your foreheads this day. For in the forehead is the sign of the All-Seeing Eye, of the capstone on the pyramid of life. And this is for the crystallization of the emerald ray and of the flame of precipitation, which we enshrine here at the Royal Teton Retreat.

### **The One Flame and the One Fire of the Eternal Presence**

I AM Confucius. I AM the sponsor of East and West, of lifewaves who would be blessed by the flame of Mother. Come, then. Come, then, children. Come, devotees of the light, and see that this precipitation flame is unto you the alchemy, the key, the light that will release all those who have been placed in valleys of separation, subterranean levels of consciousness whereby they are polarized here and there to the dark stars of the appearing of the fallen ones. And therefore there is schism, there is separation, there is shadow, and there seem to be many ways that lead to God.

Indeed, it is considered the height of philosophical understanding to be tolerant of these many ways and many teachers. Yet the LORD our God is one LORD, and therefore if the teaching be true, then it is always the teaching of the Cosmic Christ sponsored by the Father and fulfilled in the Holy Spirit.

Therefore, you see, the one path above the many is the path of the great synthesis whereby all come into the understanding of that conditional light that will not be conditioned but

that conditions all to the one flame and the one fire of the eternal Presence.

This, then, eliminates all prejudice and the partisan consciousness of separation. It liberates the children of the One to be in this temple or that temple across the earth or in the way. For all have the understanding that where I AM, there is the Son of Righteousness, there is the fullness of Brahma, Vishnu, and Shiva. There is the fullness of angel devas, who form the bridal veil of the Mother and her train. And in all of the purity of the white-fire light of the chakra of the Mother, there is the release, then, of the thousand-petaled lotus. And the thousand rays and ways of that lotus become the one, the unity, the only life that is God.

At the summit of being, all see and know the principle of the One. Why, then, should the tarrying in the valley of life be allowed to produce separation?

If you must tarry in the valley because of your karma or to fulfill a holy purpose, connect your soul to the summit of being. Go into the Holy of Holies. *Go into the Holy of Holies.* Go into the fiery core of Krishna. Go into the light within and find your Alpha, your Omega, and then embrace all. Embrace one another East and West, and confound the fallen ones! Tell them that there will be no lines of shadow or separation on earth today, for we have come into the fullness of our Father through our Mother and we are on the homeward path.

We are tarrying in the valley. We claim the valley for the light! We claim the light to dispel the night! We stay in the valley so that we might carry the children in our arms to the very home of Father-Mother God.

We have come to stay for an hour, for a day, and for a cycle. And when we leave the valley, we will leave together. We will leave as the victors. We will leave as the remnant.

We will leave as the pied piper of the Brotherhood, calling, by the secret formula of the music of the spheres, all children of the One God. And we will climb that highest mountain to find that highest consciousness of our God.

**Oneness Is Come by the Great Synthesis  
of Mother Light**

So, then, *you* be the one who determines the point in time and space where you will mark the hour of your ascension! Let not the fates, then, or the crystal balls or the crystal-ball gazers be the ones who by their astrology determine when and how you shall manifest the victory. But keep your eye upon the one flame of purity and know that the victory is now.

We will not have the procrastinations of the procrastinators, the fallen ones who continually tell the children of God that over the next hill is the bliss of the reunion, and then over another hill and another hill.

We are not hill climbers! We are mountain climbers! We are climbing to the retreats of the ascended masters and we are climbing the ladder of the chakras by the path of initiation! And it is Almighty God who releases unto us the cycles of our destiny!

We, then, will not be shortened or lengthened by the shadows of the fallen ones, but we will be the fullness of the noonday. For when we dwell in the city of our God, there is no night there.<sup>1</sup> But the sun of the I AM Presence is the light thereof, and that light is the eternal day. And that day is the coming of the One—the One out of the many.

This is the destiny of sons and daughters of God in America and in every land: to be the I AM Race, to be the fullness of the path of the Holy Spirit, one out of the many. As many have come forth out of the One, let the many, then, not forget the Path back to the One.

This is my prophecy from the Royal Teton this day—that this is the hour of the One, and the oneness is come by the great synthesis of Mother light as Shakti of Brahma, Vishnu, and Shiva, and of all the ascended hosts.

**By the Law of the One  
You Conquer Every Lie of Separation**

Be, therefore, that Shakti! Be the action of God where you are! And suddenly know that there is one Person incarnate in ye all—the one eternal Christos! By any other name, by any other vibration, he is Lord of lords and King of kings;<sup>2</sup> by Krishna, by Govinda Gopala, by all who have been and all who shall ever be the fullness of the I AM THAT I AM.

Out of the many is the One, and by the Law of the One, my children of the Sun, you conquer every lie of separation.

Do you see how the word *lie* is but a perversion of the word *Law* and that every lie is a breach of the Law; every lie is the confounding of the Law of the One?

For in the lie there must of necessity be the coordinates relative of human goodness, human badness, and all of the ups and downs of the road of illusion in the highway of darkness upon the earth.

See, then, that when you return to the Law of the One, taking any thread of any of the incarnations of God, you must come to that synthesis that is the wedding garment of your soul. Weaving the wedding garment is taking all of the threads of cosmic consciousness that have appeared in the ages and making of them one seamless garment, the white garment of purity. It is the garment of the Mother with which your soul is adorned in birth as the swaddling garment and in the hour of the ascension as your wedding garment.

Come, then, into the folds of that wedding garment of the Mother, and know that by this alchemy all who have set

themselves outside of the Law of the One will come to naught if they do not choose to be the fullness of the LORD God where I AM this day in universal manifestation.

I send forth the call. I seal the momentum of my light in the heart of Mother. I send forth the call for the chelas of Guru Ma and of all devotees of the Mother light.

Come into the understanding of the Buddha of the One. I AM here and there and everywhere. I AM in you, Confucius. Confucius, I AM.
