The Prince of Peace Inaugurates a Cycle of Peace

I come to deliver unto you manna as nourishment for soul and body temple, and a scroll that is the edict of Alpha, of Omega for the expansion of cosmic purpose within you. It is a miniature scroll, a replica of the one that the Lords of Karma held in hand as you took incarnation in this life.

This miniature scroll adds to the one you have already received, adding the possibility for light's expansion and the increase of light within your heart and upon the planetary body.

It is a scroll containing the alchemical formula whereby, by the x factor of your individuality, your Christ-pattern, you can multiply the light received and the light released from the ascended master octaves and thereby increase light's action of the Holy Spirit in this planetary home.

It is the hour for the increase, and the hierarchy of light...

The Prince of Peace Inaugurates a Cycle of Peace

Here AM I. There AM I. In the midst of the flame, I AM Jesus the Christ, and I AM the fulfillment of the Christ consciousness in all mankind this day as the Christ Child.

The pattern holy of the Christ incarnate is adored and worshipped, honored on earth. So the holy innocence of the childlike form, being, and consciousness of the Christ that I bore is superimposed upon those who worship that light in this hour of the celebration of the nativity of God in man and God in woman.

I AM the personal saviour of some, and the personal saviour of the world. To those who call upon me, I AM the answer of light in prayer. And on behalf of those who call not or know not how to call, I AM still the indwelling Presence of the Christ, one with the Christ Self, one with the I AM Presence of all mankind.

I come to deliver unto you manna as nourishment for soul and body temple, and a scroll that is the edict of Alpha, of Omega for the expansion of cosmic purpose within you. It is a miniature scroll, a replica of the one that the Lords of Karma held in hand as you took incarnation in this life.

body. It is a scroll containing the alchemical formula whereby, by the x factor of your individuality, your Christ-pattern, you can multiply the light received and the light released from the ascended master octaves and thereby increase light's action of the Holy Spirit in this planetary home.

It is the hour for the increase, and the hierarchy of light is working to turn every action of the light into a miracle of the multiplication of the loaves and fishes, of the expanding abroad of the Law and the knowledge of the Christ light to all.

Thus, we look to perform great miracles of expansion in the class of *The Origin of Cycles*.¹ And the Great Divine Director stands with me tonight to also give impetus of his momentum of divine direction and of the initiation of cycles to this my address for nineteen hundred seventy-three and the celebration of the Christ Mass.

My Life with Joseph and Mary

I remember well the life that we lived as Joseph, as Mary. As we walked together to expand the Trinity and as we heard angelic hosts proclaiming The Gloria,² proclaiming the release of light, of illumination and of the will of God, the love of God, we knew that our lives were offered for the emancipation not only of the peoples of that time and place but also of all continents and all times to come.

And as we were tutored by the angelic hosts we learned that diligence in the Law, discipline in mind and heart, and attention to every detail twenty-four hours a day was the key to our victory and to our anchoring of the Christ light in these octaves in which you now walk and in which you now feel the glow and the flow of our mission that is the foundation, the requirement of Almighty God for the entering into the golden age of Aquarius.

I think upon the lilies of the field, the many parables and teachings that were impressed upon my soul by Lord Maitreya,

by the I AM Presence, and from the training that I received in the retreats of the Brotherhood.

These teachings, when studied in depth as they will be given to you through the Mother of the Flame, will also reveal every aspect of your mission upon earth and how you can increase the teaching of the World Teachers and the light that glows within your chakras and within worlds.

The Flame That I Bear

I AM, then, come as the Prince of Peace to inaugurate a cycle of peace. And by the momentum of the Elohim Peace and Aloha, I increase in the action of the Law the flame of peace within you. For as you travel abroad in places apart from your native land and from your hearth and home, the action of peace is a kindling fire that will draw all mankind into the contemplation of pure reason, of the Word incarnate, and of the light that must descend to increase the Christ consciousness upon earth.

And the beings of the elements—the mighty sylphs of the air, fiery salamanders, undines, and gnomes—one and all respond to the flame of the Prince of Peace. One and all accept the edict of the Son of man to anchor the flame of ministration and of service. And so I say, increase the light of peace. Increase the light of my mission as the foundation for the mighty work of Saint Germain to this age.

My adoration of the Father-Mother God is expanded as I adore the flame of the Christ blazing forth upon the heart's altar of millions of souls. I walk among you, and I walk among the multitudes. I AM the liberation of all mankind unto the ultimate destiny of freedom, of self-knowledge, of awareness of the I AM. I AM the penetration of the places of worship and of the ministers in those places of worship.

By the action of the power of the spoken Word, by the action of the Word of light, I AM the penetration of men's

hearts and minds. I AM the overcoming by the blood of the Lamb.³ I AM the homeward walk, and I AM in the service of the Most High God.

I challenge now, by the action of the fiery, white cross, all impostors of my name and flame. *Bind* them now! *Bind* them now! *Bind* them now! And let thy kingdom come on earth, O God. Let thy will be done on earth, O God. And let the action of the Holy Family be the pillar of fire in the age of gold.

The Prince of Peace, the mighty Counsellor, the King of kings and Lord of lords⁴—these names are appellations of the flame that I bear and the flame that I AM. And as we are one in that flame through the service of aeons, so that flame is increased by the multiplication of the light-action of your hearts.

Thus moving, working, flowing together, I AM the greater works that ye shall do because I AM in the Father and of the Father, and because you are in the Mother and of the Mother. Therefore in oneness does infinity expand within finite realms. Thus in oneness do all mankind come to know and to be the full expression of the Christ.

Harmony at All Levels of Consciousness

My angels are tarrying round about this place this night, those twelve legions⁵ to whom I have called throughout the ages for succor and in supplication. As they are always with me, so they may be always with you as long as you are one with me—in harmony, in the flame, in obedience, and in the commandments of our Father, who art in heaven.

There can be no severing of the body of God and no severing of our service when we are one in the adoration of him, who created all things. Therefore, those who profess to love me and yet who are out of harmony with the Spirit of the Christ do not have the full effulgence of my mantle or the backing of my awareness in time of trouble.

To worship God is to be God! All other worship is false and is an excuse for man's self-created separation from the Most High God. The oneness of the flame, then, is the miracle presence of alchemy, of overcoming, of the expansion of the white-fire core of the planet and of the fulfillment of the golden age imaging forth from the Christ mind in all mankind.

As I stand before you, I look upon great cosmic beings who are arrayed high in the atmosphere above this place seeking to enter into the hearts of mankind. Precious ones, there are few into whom they can release the light and in whom they can enter into the octaves of earth. This is because the thimble of mankind's consciousness has not expanded to be the chalice of victory, opportunity, and becoming.

The Cosmic Being Harmony intensifies now the action of the rainbow rays of God and of the secret rays. God Harmony, whose consciousness is solely upon the consciousness of God's harmony, desires to find room in the inn of being of mankind. And where can those be found who are harmonious at all levels of consciousness? To prepare for the coming of that mighty being into your world, may I humbly suggest that you call for the harmonization, the harmonizing of all elements of being in the one flame.

May I suggest that you call to beings of light to bind the forces and forcefields of a false astrology that would attempt to set at odds the members of your being and consciousness, who are right within the forcefield of the hallowed temple of God, and then to set at variance the members of the body of God.

May I ask you to call upon the LORD God of hosts in my name, in the name of the risen Christ, for the canceling out of those actions of witchcraft, actions of voodoo and darkness pitted and projected against the harmony of your being.

When you experience irritation, subtle, somewhere within the recesses of the emotional body, at that moment you can know that forces of darkness are attempting to break

the tie that could be a mighty cable for light to pour forth, a tie with hierarchies of heaven and hosts of light.

By the action of the crystal ray, you ought *never* to allow any intrusion upon your world. You ought to be firm where injustice manifests in any form around you. You ought to be firm in the defense of honor and the cosmic honor flame. For upon the integrity that is the integration of Christ wholeness within you, the kingdom of God is built and the kingdom of God comes into manifestation upon earth.

Call, then, for the integration of all the virtues of God in heaven and on earth within your four lower bodies! Call for the integration of the qualities of your causal body within your forcefield! Call for the integration and see how God, the very Spirit of the living God, will move in your being to harmonize all energies stored even in the subconscious mind.

But beware of a false peace and a false harmony that cries, "Lo, here is peace. Lo, here I am harmonious." But beneath the surface is the seething vortex of envy, jealousy, hatred, and deceit, and the grossness of the carnal mind. All these things must dissolve in your determined effort to be a flame of God.

The Determination to Be the Allness of God-Good

Determination is the fulfillment of a mission and of a life triumphant and victorious. Determination is like the ice on which you glide to victory. Determination is the smoothing of the way. And when you are determined to be the allness of God, you are buoyed up on pinions of angels who carry you, as it were, across the miles, across the hills, above the human filth and degradation until you perform all things perfectly and well in this world. Then you can truly say, "I am a pilgrim on earth; I am a citizen of heaven sojourning in time and space, awaiting the call of the Most High God to come up higher."

I desire to give to you, then, to bequeath to you as part

and parcel of my Christ flame, the determination of the light of God that was and is mine and has always been the victory of the light within me. Determination to be the allness of God—good at every hour of the night and day will take you beyond those human habit patterns of the misuse of energy—the determined action to put down the *smallness* of the ego, the *smallness* of pride, the *smallness*, the *pettiness* of human will.

Do you sit and decree and ask God to do it for you? God will release the energy into the nexus of your consciousness, but the Christ-fires and the Christ mind within you must be the action that releases light into the matrix of Mater for the action of the Holy Spirit. This is the new birth. This is the rebirth.

Do not think of past failure, of lying down on the job, of past excuses for not exerting the full energy that God requires for accomplishment in the hour of need and in the hour of crisis. Remember the determination to “keep on keeping on” that is the flame of avatars, of saints and ascended beings.

In the words of Gautama Buddha and by the action of that flame of *deter-mind-action*, I say: *Go be* the fullness of all that God has made you to be! *Go be* the fullness of cosmic overcoming! And let the earth, the moon, and the serpentine force be beneath your feet as angelic hosts proclaim the victory of mission Christmas 1973 and bestow upon you the reward of greater service in the light.

You have passed certain initiations of Maitreya on this journey. And those initiations and the record of your overcoming will stand in flames of fire in the Book of Life and in akasha, wherever you have walked and talked with God and man and elemental life.

The Sealing of the Record and Memory of Victory

So I say, O God, *seal* the record and the memory of victory in the sands of time until the earth is wholly ascended in the light and free!

And I, Jesus the Christ, proclaim that every erg of energy released by the pilgrims, by the masters, shall in the name of the Christ be sealed in violet, in white fire, and in blue lightning for the cosmic action of the light that never fails.

And thus that energy from this time, from this place, is sealed in blue lightning and it can never be requalified but will stand as spheres, atoms of light, monads of light, the action of the sacred fire as stars in the firmament of God’s being.

And so when you return you will find all the gold and all the crystal and all of the light that has gone forth, waiting there to be released again and again. And in your absence angelic hosts will release that light for blessing and not for cursing, for overcoming and not for defeat, for the victory of the light in all who walk where you have walked.

I AM in the living flame of peace, your Jesus the Christ.
