A Report from the Lords of Karma

Part 2

Let the light go forth from this altar as a lightning spark of encouragement to all who work and who are not weary in their sacred labor. Let the lightning of divine love go forth and consume the demons of fanaticism and of hatred that have burdened souls of light in their attempts to serve, countering (as they have again and again) the darkness and the deception of the fallen ones. It is understandable, although not excusable, that souls of light themselves have become burdened by their own reactions.

Saint Germain stands beside me, the champion of light, the champion of world freedom. There are a number of lightbearers in every nation whom he personally sponsors and on whose behalf he reports to the Lords of Karma for great dispensations of mercy. Without the sponsorship of Saint Germain, the voice of these individuals would not be heard. In Russia and in China, in every land there are devotees of Saint Germain. Beloved ones, for us to behold the great light that is being held upon earth because beloved Saint Germain has taken his stand, it is a joy. It is an encouragement.

The Lords of Karma desire, then, to give commendation to Saint Germain, to others of the ascended masters, and to

their chelas. We commend all for your steadfastness and for your decrees and, as I have said, for the practical nature of your service.

The Dissolution and the Disintegration of Large Forcefields of Darkness

We ask you to take note, as Lanello has pointed out to you on Christmas Eve, of the change in the forcefield of the Western Hemisphere in the absence of the Mother.¹ We take from our hearts, then, and place within your hearts a special lodestone of energy whereby you will be keyed to hold the balance for this continent and this hemisphere as the messenger journeys to add light to another place where souls of light desire her coming.

We appeal to Surya and to Cuzco to increase now the stepping up of factors in the retreat at Suva² so that the balance of planetary forces may be held and so that darkness does not enter as a wedge either within this government, this nation, or this community of lightbearers.

Do not underestimate, then, the balance of power, wisdom, and love that is held by this community or by the messenger. Be diligent during this hour of the cycles turning of Capricorn unto Aquarius, for the very delicate cycle that comes forth from the Central Sun is for more than that which meets the eye.

And we will continue to lower into manifestation energies for the dissolution and the disintegration of large forcefields of darkness that are within the cities of America and the world. These we will lower gradually into manifestation through the stumping tours, through the coming conferences, through your own lecture programs, through your own expansion projects, which we are most gratified to report have increased the light consciousness of America and other nations, *measurably so*.

Carrying the Torch of Gautama Buddha for the Victory of Enlightenment through Education in This Age

It is the desire of the Lords of Karma to see the souls of light—from birth through the twelfth grade in high school who have been selected throughout the earth this year—cut free to be a part of the community of Camelot and to be a part of Montessori International.³ Mother Mary requests a special vigil for the children of light and for their parents, who often have not the insight nor the foresight to allow them to attend.

We ask for the children and the young adults of Montessori to set aside the half hour of evening invocations as calls to the Cosmic Mother through Astrea for the protection of these souls, who are truly an inner part of the mandala of light and yet are not physically present.

Those who have received dispensations and who could be here this year, on this day, are double the amount that are here at this time. There is no reason for them to not be here except that the opposition to their coming has not been dealt with seriously by the faculty, the present parents, and the students assembled.

Do not underestimate the need for yourselves to become a central sun magnet for these children, and do not underestimate the need for parents, faculty, and students to consider themselves a trinity of light-action, carrying the torch of Gautama Buddha passed to the messenger for the victory of enlightenment through education in this age.

I ask this trinity of world servers to also consider calls for the arresting of the spirals of darkness that cover education in America through the NEA* and through individuals self-styled, part of the band of fallen ones who have used education as a means to further their socialist and Marxist aims. These terms are misnomers, for they are Luciferian aims,

*National Education Association

they are anti-Christ aims, and they come in the guise of liberal educational trends that neglect the inner development of the soul of the child.

The Lords of Karma would point out that although we have reiterated the Law on many occasions, some have forgotten that without specific calls on specific subjects, we are not permitted to enter in. And therefore to be informed is of utmost importance—to read the periodicals that are published by devotees of freedom, patriots of America, as well as to read those that are published by the left-wing press, thus to gain a spectrum of all views.

And as we have said, it is important that you know the regard for America by nations outside of the United States and by the media outside of the United States. For you have already been shielded from far more than is necessary, and this is a part of the manipulation of the internationalists, who govern in all the nations and who are keeping the people of America ignorant of those forces that are diligently at work to tear down and to destroy.

The City of New York Hangs in the Balance

Blessed hearts, I report to you that although things have been smoothed over in Manhattan, in the city of New York, and in the state of New York, that focal point of the third-eye chakra of America is in dire economic distress. The dishonesty of the fallen ones that has recently been exposed, as they have put upon the people these certificates in New York City, these bonds that have been issued,⁴ is a frightful mismanagement of the flame of leadership. This leadership manifesting both in the government and in business and in the banking firms is seen once again as the wolves in sheep's clothing, who have absolutely no heart for the people but have manipulated them through investment schemes,

through political and social actions for many a decade now.

And thus the people of New York are bearing a tremendous burden. For over the city of New York is the Temple of the Sun, the temple of liberty,⁵ and yet the fall of New York, as Babylon the great, has also been prophesied in the Book of Revelation.⁶ And the staying of the hand of that prophecy has come because a few lightbearers and a handful of Keepers of the Flame, as sons and daughters of liberty, have determined to roll back the darkness of the money beast and of the mass manipulators of organized crime at every level of operation in that city.

Of all cities on earth this day, New York hangs in the balance as to whether or not she will actually survive or whether she will be the opening for the pulling down of the entire nation economically. Beloved ones, there is more than meets the eye to the crisis in that city.

I ask you, then, to project your visualizations as you give your Astreas and your calls to Cyclopea, and especially your violet-flame invocations, that that city might receive the balancing flow of your light and that our Keepers of the Flame there might also have reinforcement. And we desire to send more lightbearers to that city as it is deemed wise by the Mother of the Flame and by those who are able to project the needs of the many cities, and especially of Camelot.

We cannot predict that the city itself will survive, for this has not yet been determined by the Council or by the Lords of Karma. But what we can determine is this: that unless there be greater light pumped into the city, even as billions of dollars have been pumped into the economy of the city, there is very little chance that it can survive as it should as a city of light.

The great concern of the Lords of Karma is that this city represents the chakra so necessary to the opening of the

vision of the third eye for America and for the City Four-square. Because of the economic situation and the manipulation of the bankers, Wall Street, the Illuminati, and those who have centered in New York, it becomes a grave question of tackling at the root the entire matter of the supply, the money system, and the banking system of the United States.

We are encouraged that many lightbearers see the need to prepare themselves in law, in economics, in international finance, in government. For when the challenge comes, as come it must, to the entrenched forces of the fallen ones, it will require rings of lightbearers who have both the maximum training and understanding in this octave and the maximum contact with our Brotherhood.

Beloved ones, this confrontation must not be far away. It cannot be postponed. For if it is postponed too long, it will happen that the fallen ones will have gained their ground before the lightbearers have had the opportunity—or should I say *seized* the opportunity—to overthrow the fallen ones before they have finally hatched their final schemes for world takeover and for a one-world government and a one-world economy.

Consider Where to Position Yourself in This Battle for Righteousness

Beloved hearts, the grace of God be upon you. We have not come to burden you. We have come to give you light on necessary subjects.

Systematically take up each subject one by one. Consider where you must position yourself in this battle for righteousness, and then concentrate your energies with the right groups, the right people, and especially those who are already representing you in the form of government. Blessed ones, your letters are effective. They are but a first step. They are the forerunner of yourself.

The Lords of Karma release seven rays for the intensification of your seven chakras in the practical matter of tying your lifestreams, your consciousness, to those key points and to those key individuals who heretofore have held the reins of power by money, by position, by social standing, by family, and by darkness. We give to you, then, a certain acceleration of being whereby you can enter into a spherical consciousness of world conditions. Be informed and take action on the information that you have.

Let none underestimate their role in this great drama, and let none underestimate the need to attend at least one quarter at Summit University⁷ before you take on the world. You may know the points of the Law, but you need the transfer of light that comes by a saturation of your being in the aura of the ascended masters, the messenger, and the community.

We have left no stone unturned for your deliverance and God's deliverance through you of the captives in this age. See that you do likewise, and all will go according to plan. For there is an order and there is a tide in the affairs of men. Taken at its crest, it leads on to victory.

Do Not Take Your Steadfast and Steady Gaze from the World Scene

Hold your heads high, but do not be gazers of the sky. Hold them firm and steady. And with a glance look up at the hosts of the LORD, but do not take your steadfast and steady gaze from the world scene. For day by day and hour by hour the archdeceivers attempt to move in, to infiltrate, to tear down, to foment violence, terrorism, and unrest, and to put through the governing bodies of the earth measures that are distinctly anti-Christ, always in the moment when attentions are in other directions—on the holidays, on the conclusion of Congress.

Thus the recent measures on abortion, pushed through

at the last minute, have gone counter to the decree of light that we have sent forth, all in an instant and in a moment when not enough lightbearers placed the full momentum of their lifestreams upon that particular vote and that particular moment.

It is not our desire to make you tense, but we would remind you not to allow yourselves to become so loose that you are not able on the instant to summon cosmic forces, to make your invocations, and to challenge darkness.

Be alert. Listen with your inner ear. Listen to the warning. Listen to the prompting. And listen to the singing of the birds. For the birds whisper the call of light, the teaching of the Brotherhood, and they also come with the warning when your soul must take action or take flight.

Listen to the song of Camelot, which the angels sing in your heart. Listen to the cry for life. Listen for the whirlwind action of the coming of the LORD's Spirit. And listen for the sound of your alarm clocks as you rise on time to give your invocations and to start your day with a mighty thrust for victory!

I AM Portia in the heart of Saint Germain. I stand with the Lords of Karma as we stand for earth and her evolutions this day.

I bid you good evening.

"The Summit Lighthouse Sheds Its Radiance o'er All the World to Manifest as Pearls of Wisdom." This previously unpublished dictation by **Portia** was delivered by the Messenger of the Great White Brotherhood Elizabeth Clare Prophet on **Sunday, January 1, 1978**, during the *God Is Mother* conference, held in Pasadena, California. Part 1 of this *Pearl of Wisdom* is published in this volume, no. 5. Any books listed in the following endnotes are published by Summit University Press and are by Mark L. (1) **In the absence of the Mother.** See Lanello's dictation given on December 25, 1978, published in *Pearls of Wisdom*, vol. 65, nos. 45 and 46, in which it is explained that the messenger traveled to Africa (Ghana and Liberia) and then to England, January 11–25, 1978. (2) **The retreat at Suva.** This etheric retreat of Surya and Cuzco, known as the Sacred Retreat of the Blue Flame, is located near Suva, the capital of the Fiji chain in the South Pacific, on an island northeast of Viti Levu (the largest island). The retreat extends both under the sea and within the mountains. See *The Masters and Their Retreats*, pp. 465–67, for a description of this retreat. Ordering information above. (3) **Montessori International** is the name of the school originally founded by Mark and Elizabeth Prophet in 1970 at La Tourelle in Colorado Springs, Colorado, based on the educational principles of Maria Montessori (1870–1952). At the time of this dictation the school was located in Pasadena, California, soon to be moved to Camelot in Malibu, California. In the 1980s Montessori International had nearly 250 students at Camelot. (4) **These bonds that have been issued.** In a March 2, 1978, article in *The New York Times*, it was reported that President Jimmy Carter had initiated a plan to save New York City from the brink of bankruptcy by selling 2 billion dollars in guaranteed bonds, which would be sold to city and state employee pension funds and secured by federal funds already going to the city and state in the form of revenue sharing or other payments. A fee of one half of 1 percent per year would be charged on any outstanding guaranteed bonds. Elizabeth Prophet had this to say about this plan on March 3, 1978: "New York City is the modern Babylon. It actually would have fallen had it not been for the intercession of the lightbearers. Huge grants of money from the federal government—that's the money of the taxpayers, the money of the lightbearers—goes to bail out the dragon, the conspiracy, the Wall Street misuse of the funds of New York City. And the establishment of the teaching center there has actually been the turning of the tide of the utter collapse of New York. After massive funds have come into New York City, we have the scandal of the bonds where banks and other individuals are forcing upon the little people worthless bonds, which they already know are worthless. Constantly are the fallen ones making the little people the scapegoats for their mistakes." (5) **The Temple of the Sun, the temple of liberty**, refers to the retreat of the Goddess of Liberty located in the etheric realm over the island of Manhattan. The central altar of the Temple of the Sun is over the Statue of Liberty in New York Harbor. See *The Masters and Their Retreats*, pp. 484–85. Ordering information above. (6) Rev. 18. (7) **Summit University.** At the time this dictation was given, twelve-week sessions of Summit University were held at the beginning of the four quarters of the year, each quarter sponsored by a particular master or masters.
