

The Beloved Goddess of Light

A Crystal Pyramid from My Heart

For as I am one who has long meditated upon the light of God, I have become a scientist in the use of energy and in the multiplication of that energy of God. And for this purpose I use crystals of various geometric configurations, rock crystal from the elementals of the earth, a counterpart of rock crystal that is on the etheric plane. I also use other substances not known in this octave as well as jewels such as the diamond, the emerald, the ruby, and the sapphire.

The violet-flame energy focused in the amethyst is also a means of taking the light of purity and passing it through for expansion—an extraordinary focal point of Saint Germain's own fiery, purple diamond heart. Thus as we become more and more of God's cosmic consciousness, we employ means to extend that consciousness to the farthest reaches of cosmos and into the most dense conditions.

Hence, beloved ones, it is the crystals of your chakras that are most important, rather than the jewels that you might wear, and I would take from my heart a crystal...

The Beloved Goddess of Light

February 15, 2023

A Crystal Pyramid from My Heart

I AM the Goddess of Light! I come into the community of lightbearers to implement the dictation of Gautama Buddha and the dispensation of the thoughtform for the year 1978.¹ I come to enhance the light of the dispensation of Alpha and Omega for cosmic purity to inundate the earth.² Therefore I lend the momentum of my heart chakra as a crystal of light to reflect and to refract this cosmic purity.

Thus I come to announce my dedication and to ask you for your own. For I would give to those of you who would atone for world karma in this year, 1978, a crystal of my heart. For as I am one who has long meditated upon the light of God, I have become a scientist in the use of energy and in the multiplication of that energy of God. And for this purpose I use crystals of various geometric configurations, rock crystal from the elementals of the earth, a counterpart of rock crystal that is on the etheric plane. I also use other substances not known in this octave as well as jewels such as the diamond, the emerald, the ruby, and the sapphire.

The violet-flame energy focused in the amethyst is also a means of taking the light of purity and passing it through for expansion—an extraordinary focal point of Saint Germain's own fiery, purple diamond heart. Thus as we become more

and more of God's cosmic consciousness, we employ means to extend that consciousness to the farthest reaches of cosmos and into the most dense conditions.

Hence, beloved ones, it is the crystals of your chakras that are most important, rather than the jewels that you might wear, and I would take from my heart a crystal developed out of the momentum of my own heart's devotion to the flame. For you see, it is not only elemental life who can create crystals, but it is also the ascended hosts and the ascended masters.

I Extend to You Now a Crystal Pyramid from My Heart

I extend to you, then—those who will to be multipliers of the seed-light of the Great Central Sun—a crystal now from my heart. It is a crystal pyramid. I place it in the hand of your own blessed Christ Self, who takes it now and places it within the secret chamber of your heart. Now be with me a keeper of the flame of life for guru and chela and for the holding of that thread that crosses the lines of octaves and sustains the flow of hierarchy.

Legions of the Goddess of Light, now march in your formation around these souls for their sealing in the light of Gautama Buddha. Seal them in the crystal white light of Cyclopea, held as a crystal in the heart by the beloved Virginia. Seal them in the mind of God and in the crystal of the mind of God.

Angels of my band, now expand light through your own crystal centers. Angels, reveal thyself to these blessed hearts, who stand in such concentrated purity of consciousness as to fulfill the Law and the requirement thereof to be one with us in this hour.

Angels of light, reveal the crystal fire mist of God, the crystal fire mist integral to each creation brought forth from the Word and out of the Logos.

The Ritual of the Sacred Fire Breath

Blessed hearts, the nearer you come to the crystal light, the nearer you come to the alchemy of creation. If you would create according to the teachings of the blessed Saint Germain,³ then, I say, approach with reverence the crystal fire mist and honor the fire breath. And remember the ritual of the sacred fire breath—the eight counts four times for the balance of the four lower bodies.⁴

When you develop your momentum, you can practice this exercise in moments when you are waiting for this or for that during the day. Given two or three times is better than not at all, and it will accrue to you a certain momentum within your cells of that delicate crystal fire mist, which the Lord Maha Chohan transfers out of the molecule and the atom of oxygen—out of the nucleus and out of a molecule of oxygen in combination with another chemical element, which I am not permitted to define in this moment.

Be the Master of Your Pyramid of Life

Meditate on the Word of the LORD in the act of creation, “Let there be light!” And there was light!⁵ Meditate upon the action of Alpha and Omega in the release of the creation of the Matter cosmos out of Spirit.

Beloved ones, this creation is taking place microsecond by microsecond, and there is a great recording that is heard throughout the cosmos of the perpetual fiat of Alpha, “Let there be light!” and the reply of Omega, “And there was light!” In this beauty of the polarization of energy through twin flames, creation is perpetually being born and creation is perpetually ascending back to the white-fire core.

Thus, when you are in tune with creation in perpetual motion, you have the energies of Alpha and Omega flowing through you. You have a momentum of eternal life. You have

the momentum of transmutation as the alchemy of Spirit becoming Matter, and Matter becoming Spirit. You move with the essence of the Logos and of the Word and you are at the point of the eternal Now. It is meditation upon this concentrated activity of God that has brought to me my attainment in light and the subsequent conferring upon me of the title “Goddess of Light.”

I AM Amerissis.⁶ Out of the Great Central Sun I come. I enshrine the Buddha and the Mother. I enshrine purity in your heart. And as you keep the sacred fire and the sacredness of the crystal pyramid, you will evermore be the recipient of the flow of the pencil beam of light from my heart as I perpetually meditate upon the creation of Almighty God.

In light I seal you for the Victory. Be the master of your pyramid of life!

“The Summit Lighthouse Sheds Its Radiance o’er All the World to Manifest as Pearls of Wisdom.” This previously unpublished dictation by the **Goddess of Light** was delivered by the Messenger of the Great White Brotherhood Elizabeth Clare Prophet on **Sunday, January 1, 1978**, during the *God Is Mother* conference, held in Pasadena, California. Any books listed in the following endnotes are published by Summit University Press and are by Mark L. Prophet and/or Elizabeth Clare Prophet unless otherwise noted. Books, audio, and video products are available at <https://Store.SummitLighthouse.org>. The widest selection of audio files, including dictations, are available at www.AscendedMasterLibrary.org. **(1) The thoughtform of the year 1978.** In a dictation given by Gautama Buddha on January 1, 1978, he described that the thoughtform for the year was contained within a great crystal sphere of light brought to Shamballa by Sanat Kumara. Sanat Kumara released the ray for the opening of this sphere, and within the center of the sphere was “the figure of a man, a man

who is not a man but an angel, an angel kneeling before the flame of the ark of the covenant and the covering cherubim and the flame of the ark. And the one who kneels now rises with a scroll that he unwinds within his hand. And upon the scroll, the names of those lifestreams upon earth who are called this year to enter into the intimate relationship of the Guru/chela with an ascended master—with Saint Germain, with El Morya, with Lanello, with Maitreya, with Padma Sambhava. Blessed ones, the legions of Sanat Kumara implant this thoughtform within the hearts of those to whom is destined the closer walk with God. And legions of angels from the Central Sun and from the Ancient of Days come to reinforce the blessed tie.” (Published in the 1978 bound volume of *Pearls of Wisdom* as the Prologue. See ordering information above for the MP3 audio.) **(2) The dispensation of Alpha and Omega.** In a dictation given on December 30, 1977, the Goddess of Purity declared, “I AM the blazing, triumphant, cosmic-purity consciousness from out the Great Central Sun! I have entered into the highest initiations of purity, and I have been abiding in the white-fire core of Alpha and Omega in preparation for this release of floodtides of purity unto the earth. . . . I AM come to declare to you that the thrust of purity that is required to counteract the impurity—not of the children of God but of the fallen ones—is great and is indeed now brought forth by the Great Central Sun messengers! Beloved Alpha and Omega have weighed the equation of all impurity manifesting upon earth, and they have decreed the dispensation of the counterthrust of immaculate purity from the white-fire core of the Great Central Sun! Beloved ones, *this* is the dispensation you have been waiting for, whether you realize it or not! It is *this* ingredient of the alchemy for which Saint Germain and El Morya and the entire Brotherhood has called. . . . And therefore this release of purity is the keystone in the arch. But all is not released at once. . . . This dispensation, then, will far outlast your tenure of service on earth, and it will be available so long as there are evolutions who will carry the torch, seize it from you, and will to make their lives also a crystal of purity. . . .” See 2022 *Pearls of Wisdom*, vol. 65, no. 43. **(3) If you would create.** See *Saint Germain On Alchemy: Formulas for Self-Transformation*, Book Two, chapter 1, “Create!” Ordering information above. **(4) The sacred fire breath.** For Djwal Kul’s teaching, see *The Human Aura: How to Activate and Energize Your Aura and Chakras*, Book Two, chapter 8, “The Sacred Fire Breath.” Also see decree 40.09, “I AM Light,” in *Prayers, Meditations and Dynamic Decrees for Personal and World Transformation*, which includes “Djwal Kul’s Breathing Exercise.” Ordering information above. **(5) Gen. 1:3. (6) I AM Amerissis.** The Goddess of Light is also known as Amerissis. Beloved Father Supreme:

May the Light of Cosmic Illumination,
The Light of the Violet Fire of Freedom’s love,
The Great Cosmic Light and
