### **The Purging Sacred Fires of Love**

May the love-light of thy heart expand now to consume all fear and every doubt of the way and of thyself as the great prover of the way of the law of eternal love.

I am the third wise man. I come in the action of the fiery light of love, and I am determined that each and every child of God that is born in the manger of cosmic reality shall *be now* within this forcefield the receiver of the light of God that never fails!

I challenge the rebellion of disobedience within you! For if you would receive the light of love as the great synthesis of the way of Djwal Kul and of Kuthumi and of Morya, then know that this light of the eternal grace may be upon you only as you pursue the dissolving, alchemically, by the light of the eternal Logos.

Love, forevermore as the fulfilling of the Law, will translate thyself into new dimensions of consciousness.

## The Purging Sacred Fires of Love

May the love-light of thy heart expand now to consume all fear and every doubt of the way and of thyself as the great prover of the way of the law of eternal love.

I am the third wise man.\* I come in the action of the fiery light of love, and I am determined that each and every child of God that is born in the manger of cosmic reality shall *be now* within this forcefield the receiver of the light of God that never fails!

I challenge the rebellion of disobedience within you! For if you would receive the light of love as the great synthesis of the way of Djwal Kul and of Kuthumi and of Morya,† then know that this light of the eternal grace may be upon you only as you pursue the dissolving, alchemically, by the light of the eternal Logos.

Love, forevermore as the fulfilling of the Law, will translate thyself into new dimensions of consciousness. Let every heart be bathed, then, with the gladness of thy Spirit, O living God.

Now understand that the violet transmuting flame is the acceleration of love by the blue light of the infinite will of God. And as that portion of the will of God now seals the love fires within you, lo, it bursts as a conflagration of violet flame

within your heart, now to take you into octaves where truly you may experience the bliss of God and the conquering of this world of sin.

### The Way of Love and Forgiveness as the Way of Salvation

Do you understand, beloved ones, that your portion of the violet flame can be no greater than your portion of love? And so it is that the great Master admonished the way of love and forgiveness as the way of salvation. For it is the love that burns in your heart that is the magnet for the will of God to create that cosmic combustion whereby the violet flame truly is the baptism of the Holy Ghost.

If you would be the fullness of that fiery baptism, if you would understand the statement of the law of Morya and of the wisdom of Kuthumi, understand that your very consciousness must be translated. It must accelerate by love. And therefore, for the amplification of love we must allow the fiery trial and the testing of your soul so that you may see sweating through the very pores of your being the toxins of greed and selfishness and hardness of heart, which are brought to the surface by the conditions and the circumstances of day-to-day encounters with life. Only these will drive that substance from within, which prevents that which you so cherish and that which you seek.

### We Must Tear You from Your Self-Indulgences!

Therefore, fear not the way of the testing. For we are the gurus out of the East, and the mystic path of the eternal oneness of the Lord Christ is our goal, and we set this goal before each and every disciple.

And therefore we must tear you from your self-indulgences! We must tear you from your self-concerns and psychic manifestations and show you that only by acceleration can you

keep the flow within you that is necessary for the balance of light within you, else you will find caving in upon your very temple the forces of the night, the forces of insanity that come to taunt you on the path that you are following as the footsteps of Saint Francis.\*

Beloved ones, unless you accelerate, you will lose all! This is not a path for dalliance or for the entertainment of side issues and side effects and little paths here and there.

Understand, then, that if you do not keep the pace of the acceleration of the sacred fire within you, you will find that the fallen ones will insert their wedges of darkness and then you will flounder because you have lost the balance of the swift movement of the ship of state upon the great sea of life. Understand, then, that balance, whether of the spinning of a top or of a world or of your heart chakra, depends upon this daily flow and acceleration of light.

Let not the little children or the students that are in their ages of transition through the teenage years, then, be allowed to remove themselves even for the weeks of summertime from those necessary disciplines and sacred labors that will keep them on the path that they have walked so beautifully during the year at Montessori International.<sup>1</sup>

We know whereof we speak. Let these children now, who have gone here and there and far from this forcefield, hear my call. For I AM Djwal Kul, and I stand in the center of the Chapel of the Holy Grail and I send forth my love—love as a cable of light to all Keepers of the Flame of every age. And I say to you, I stand for the reinforcement of your sacred labor. For by that labor is love forged and won, and by love comes the gift, the sacred gift of transmutation.

Do you wonder why others who are the pedants and the theologians have not dwelt upon the mystical experience of the violet transmuting flame when it leaps from heart to

heart across the earth in this hour? It is because they have lacked the love of the ministration of the Lord Christ, “Inasmuch as ye have done it unto the least of these my brethren, ye have done it unto me.”<sup>2</sup>

### Let Us Prepare the Manger

I stand, then, within this forcefield, and I send out a line, beloved hearts of light. Now let the sun of Helios and Vesta, by our threefold light, reach out and draw into this place of consecration the children of the heart of God. And let that heart be expanded now within you, and let yourself find as penance this day some work, some deed, some sacred offering of your heart that is a sacrifice of yourself. Lay a brick in the eternal temple made without hands, and let the brick quiver with the vibration of your Electronic Presence.

Souls of the heart of being, come to Camelot! Come in the physical octave! And with Hercules, let us transform this land and these buildings as a fitting manger. For when September comes, it will be for the birth of the Manchild in the light of the Mother Virgo for the building of the temple unto her shrine and to her allness.<sup>3</sup>

Let us prepare the manger. Let us prepare the heart. Let us prepare with love. And let all around this planetary body who salute the flame of “Camelot come again” send the light of Mercury, of the etheric flame of righteousness, of the flame of the balance of the Christ mind of the Cosmic Christ and the deep desiring of God to be that life. “He that loseth his life for my sake shall find it again.”<sup>4</sup> This is an alchemy of the community of the Holy Spirit.

### A Prayer for the Building of the Manger for the Coming of the Christed One

We are the initiators out of the mystic light of the East, out of the way of the Manchild from the fiery core of Cosmos’

secret rays. We are here with a fullness of the disciplines of your meditation upon the Law.

Therefore, let each and every one seize now the torch that is being passed by the Mother in this summer of 1978 and pursue the writings of Jesus and Kuthumi and Saint Germain on *Prayer and Meditation* and *The Science of the Spoken Word*.<sup>5</sup> And let your life be a meditation, your hands be a prayer, and your heart be the indomitable will of God as the dynamic decree:

*I will, O God, be thy cosmic flame of cosmic consciousness here and now. I beseech thee, O living God. Make me an instrument of thy peace, thy flaming sword of peace, and let that sword be raised twenty-four hours a day.*

*I call forth the living Word from the heart of the God Star, Sirius. Let the mighty Blue Eagle now set forth the mighty wings of light and the legions of light.*

*And let this land—proclaimed the land of the Mother and her seed—receive now the great pillars of Hercules, the reinforcement of his attainment under the twelve hierarchies of the Sun, that all who serve here become chelas of Hercules during this summer of the heat of the sacred fire, and may it burn and consume the dross of self-concern.*

This is my prayer, that this crucible of opportunity might purge in you that which is unfit timber for the building of the manger for the coming of the Christed One.

And thus we provide the matrix for the initiation of our chelas. But how shall we initiate the chela who does not come to our abode? We will send love and more love and more love until that one is magnetized by the irresistible light of the Holy Ghost.

### **I Come for the Purging of Love**

O beloved ones, hear the call of victory! And in this hour, past the eleventh hour in the destiny of America, let fire

proceed out of the hearts of the thousands. Let that fire be the threefold flame, and watch how the miracles of Saint Germain will usher in a golden age and open the way of that enlightenment and victory and the binding of the seed of the wicked and the judgment of all.

Be, then, the proclamation of the lightbearers from out the Great Central Sun. Even so, come quickly, Lord Jesus Christ. For the kingdoms of this world are become the kingdoms of our Lord and of his Christ, and he shall reign forever and forever<sup>6</sup> within the heart so consecrated unto him, unailing in the eternal light.

I AM Djwal Kul. I speak with the authority of Alpha and Omega and with the authority of the light within you, and I come for the purging of love. Let this land, this city, this county, this state and nation, this entire planetary body receive the purging sacred fires of love. And in the midst of that sacred-fire purge, let the children of the light be as one—be one flame, one kindling taper, one sacred fire. And let them hold the sacred taper and the rod of light. For the holding of that rod is the certitude of cosmic consciousness while the demons take flight.

*Bind* them, O hosts of the LORD! *Bind* them by the power of our trinity! For we stand in the midst of the congregation of the righteous and we *bind* the demons in the name of the Lord and Saviour Jesus Christ and by the light of the Christ flame within ye all.

In the name of the Father, the Son, and the Holy Spirit, in the name of the Cosmic Virgin, Amen!

## The Third Wise Man

Djwal Kul, to you our love we pour  
We love you, dear, forevermore  
For your great precipitating pow’r  
And the mast’ry of light this cosmic hour.

O teach all men the Father’s way  
Assist them in that love to ever stay  
The torch of Liberty shall light the way  
Illumined man to God returns.

As the Wise Men three to Bethl’hem came  
To welcome Jesus, in Christ’s name  
And in selflessness to him they vowed  
Serve his cause as adoringly they bowed.

Kuthumi, Morya, and your name  
The Three Men Wise of holy Christmas flame  
Their love of Truth had made them free and wise  
And to that Truth all men must rise.

O Melchior and Caspar dear  
With Balthazar—all three are here  
Ascended now to heaven’s height  
Bless the mankind of earth with all your light.

O raise them now in holy joy  
In purity and faith without alloy  
For all you are and all you ever do  
Djwal Kul, our deepest love to you!\*
