I Come for the Holding of the Balance of the Earth

Peace from the heart of the earth. I AM Pelleur. I rise from the center of the rock. I ascend from the fiery core of earth, and I AM the fire in the heart of Virgo.

I AM the guardian of the earth and of elemental life in the heart of the earth, and I stand upon the altar of the living God. I stand at the altar of the Holy Grail. I stand at the door of your heart and I bring the balancing light of our hierarchy of elemental beings, of Elohim.

I AM from out of the sun of Helios and Vesta. I AM standing upon the earth for the guarding of Mother Earth, for the guarding of the Mother flame within our messenger, within every disciple of the living Christ, within every chela of El Morya, every devotee of the flame of freedom.

I bring the balancing light of the mountains and the plains and the waters under the earth and the fiery core of the rock and the mighty wind of the Holy Spirit.

I AM Pelleur! I AM come for the holding of the balance of the earth! I AM come with a plea unto the violet-flame angels and unto our devotees unascended for the invocation of the violet flame into the heart of the earth and into the heart of the blessed gnomes.

Beloved ones of the sacred fire, your own beloved Saint Germain has walked the earth north, south, east, and west, placing himself as an electrode of freedom, holding the balance of light during the past fortnight.

Beloved ones, there is much that must come out of the subconscious of the earth, the collective unconscious of the people for transmutation in this hour, and we seek to use this Camelot as the forcefield of the sacred fire to hold the balance for the transmutation of war and the intent of war that lies as a layer of guilt in the subconscious of the earth.

Gnomes, as Alchemists of the Sacred Fire, Are Master Psychologists

Beloved ones, if you could meet the gnomes who are the adepts of the earth element—those gnomes who have kept themselves free from the interference of the black magicians and the fallen ones who have enslaved large sections of the kingdom of the gnomes—you would encounter alchemists of the earth element and you would meet in these blessed beings, who have come with me this day, a council of mighty counsellors who understand the psyche and the soul of mankind and of the children of the light, of the laggards and of the incarnate fallen ones. For these gnomes have dominion in the earth, and in the very heart of the earth there is the registration of the consciousness of the people.

And therefore, beloved ones, these alchemists of the sacred fire are master psychologists, having also received their training from the ascended master Kuthumi and from the Guru before him, and before him. For these blessed gnomes have been present since the very hours of Lemuria, and by their adeptship on the path of initiation they have not passed through the cycles of the seasons, as the other elemental beings of fire, air, water, and earth must pass

through—going out and coming into the fiery core of being, from formlessness to form, through the transition that appears as death but is but the translation of energy unto greater and greater manifestation of the mind-manifestation of the LORD, the law of the elements.

The Blessed Gnomes Come with a Plea for Greater and Greater Invocation to the Violet Flame

Beloved hearts of living flame, therefore the councils of the gnomes and those who serve among these hierarchs are well aware that disturbances in the elemental kingdom and within the earth body, which are created by the manifestation of war and of all discord leading to war, come from the core within the consciousness of guilt—guilt in the original separation from God, guilt in the misuse of his Law, guilt in the rejection of the Guru Lord Maitreya and all of the subsequent manifestations of disobedience and rebellion.

Beloved ones of the light, therefore the blessed gnomes come this day with a plea unto the chelas of the sacred fire. And as I stand before you, they do bow before the immense light of your heart and the devotion of your flame. Beloved ones, these blessed gnomes have appeared before the Lords of Karma within this twenty-four-hour cycle to pay tribute to the chelas of the ascended masters worldwide, who are keeping the flame and who are holding the balance.

For thereby these blessed gnomes have seen again and again within the past two years the staying action of the LORD God against the hand of cataclysm wrought by mankind's own returning karma and by their present-day misuses of the sacred fire, especially within this capital of the entertainment industry, of the media. Beloved ones, within this very section of the earth the uses of the subconscious elements of mankind and the projection of these influences upon the motion

picture screen would have wreaked havoc worldwide had it not been for the flames invoked.

And therefore there is a great joy and gratitude that is given by the beings of the earth this day. And as they express their gratitude before the Lords of Karma and before this altar, they come also with a plea for greater and greater invocation to the violet flame and for an electrode of the mind of God from the retreat of the ascended master Cuzco to be established within this forcefield for the holding of the balance of the earth currents within Southern California, in the waters under the earth and under the sea and within the gas belts.

Gnomes Vow to Come before the Altar Each Day in the Hour of the Mother

Beloved ones, these adepts are the caretakers of the earth and they hold a mighty balance. They hold a mighty balance of power and wisdom and love, and they carry the cross of world karma within that earth element.

Let the ground beneath the feet of the devotees become sacred ground as it is revered as Mother Earth. It is by the invocation of the gnomes that the cult of the Mother of Lemuria—that the flame of the Mother, that the temple of the Mother, that the light of the Mother, that the seed of the Mother—be returned now for the raising up of elemental life, for the raising up of the sacred fires of the Kundalini within the body temple of man and woman and child.

These gnomes come before the altar of your heart, beloved ones, because they are well apprised of the delicacy of the balance of the earth in this hour. Therefore, these gnomes have made the vow before the Cosmic Virgin Omega that they will come before this altar and come before this presence and this electrode from the retreat of Lord Cuzco each day in the hour of the Mother. They will be present, then,

fifteen minutes before the hour of the Mother, in the morning and in the evening at 5:45, and will remain for the duration of the services. And they will be there to invoke the light of the Holy Spirit, of the Father and the Son for the impetus of the light of the Cosmic Virgin so that this forcefield might give forth the impetus of the new spiral of the New Age of the Cosmic Virgin. For the coming of Aquarius is the coming of the flow of the water of Mother, and the water that the Aquarian man and woman bear is the free-flow energy of the sacred fire of the Woman within.

Therefore let souls voluntarily understand the raising up of the flame of purity and that it does indeed hold the balance by the sacred fire breath for the flame of Mother. Let all who will [to do so], then, keep that flame of celibacy in purity, and let all who come understand the meaning of the 144,000 coming,¹ who bear the virgin consciousness of their energies returned to the white-fire core.

All of the Gnomes Bow before the Lord Gautama as Their Great Guru

Would you, then, receive the crown of illumination of Lord Gautama Buddha? Beloved ones, all of the gnomes bow before the Lord Gautama as their great Guru and as the God of the Earth.² And therefore they bow before the altar of his flame and before every devotee of his sacred fire, and they themselves desire to pass the initiations of the raising up of this solar light of Cosmic Christ illumination.

Beloved ones, understand that all of the beings of the four elements are held back in their evolution according to the evolution of the children of God upon earth and of the sons and daughters of God. And so, you see, each one of you has many elementals who follow in your footsteps who are delighted when you pass your initiations, for then they have

the opportunity to pass their initiations, as you have done. And as you raise up the light, so many thousands and tens of thousands of elementals may also raise up that light. But when you stop upon the Path and go no further because of your lack-consciousness, your limitation-consciousness, your self-awareness-consciousness, then the elementals too must abide in that awareness.

And even so it is with the blessed gnomes, who are imprisoned in the bodies of the animals, those precious animals that are a part of this property and throughout the planetary body. They also have the life of the group soul. Many among them have within their forcefield the imprisoned gnomes, and these gnomes can rise no higher in attainment than their own masters. And when these masters are children of the light, beloved ones, then at the conclusion of the embodiment of that elemental or after several embodiments, that one may enter the evolution of the human kingdom and pursue the path of initiation and earn the ascension.

Therefore the beloved elementals, who are initiates under the chelas of the ascended masters, look forward to your ascension. For they, as it were, will also rise upon your coattails and be part of the magnificent glow-ray, the pink and gold wisdom-love action that coalesces as the blue light and the fiery cloak of the ascension flame.

Elemental Life Hangs upon the Guru-Chela Relationship of the Blessed Disciples

Beloved ones, when Elijah rose in a chariot of fire,³ he freed millions of elementals upon the planetary body, and electrons and atoms and molecules throughout the earth received the current of the ascension flame. In every hour when there is a son or a daughter of God making that ascension, taking that initiation and that ritual in the light, beloved ones,

this saturation of the earth body by the initiation and the light of the devotee is the hope of all elemental life.

All elemental life hangs upon the Guru-chela relationship of these blessed disciples of the Lord Christ, the Lord Buddha, and the Mother, who have gathered at Camelot once again. O beloved ones, they too would be part of the chain of hierarchy. They gaze unto the stars. They gaze unto the sun of even pressure in the center of the earth. They gaze into the sea, the air, and the fire. And, beloved ones, they look to *Elohim, Elohim, Elohim* as the sponsor of their evolution. They have been trained from the beginning by the Word incarnate to follow the path of the Lord Christ, the living Christ—yea, the path of the incarnate Word, of the transfiguration. And they too are preparing one by one, as they carry the burden of planetary karma, for the full measure of the crucifixion.

The Key to the Liberation of Elemental Life

Beloved ones, elemental life cannot come down from their cross until the children of the light are also willing to pass through these initiatic fires and to pass through the crucifixion. And therefore when you receive that crucifixion and that stigmata, know, beloved ones, that when you come out from the tomb on resurrection morn, then and only then will elemental life also come down from the cross of planetary karma.

Beloved ones, if there is mercy to be had within your souls, then I say, have mercy for elemental life who have hung upon that cross for hundreds of thousands of years of the infamy of mankind, of the abomination of desolation standing in the holy place where it ought not.⁴

By the grace of Almighty God, this altar of living flame is consecrated unto the Cosmic Virgin. And the Mother flame blazes forth here, and all elemental life who have served in the days of Lemuria are once again able to come to a temple

of victory, a temple of the Grail. And there they may worship once again the supreme object of their adoring, who is the Cosmic Virgin Omega.

*Lo, I AM Omega within the temple of this messenger!
Lo, I AM Omega within the temple of Camelot! Lo, I AM
Omega within the temple of every son and daughter of God
who will raise up the Mother flame! Lo, I AM THAT I AM!*

*Lo, I AM Virgo! Lo, I AM Pelleur! Lo, I AM Pelleur!
Lo, I AM the Mother of the earth! Lo, I AM the Father of
the earth! Lo, I AM THAT I AM in the mighty figure
eight of the Buddha and the Mother!*

*I invoke the light of the sacred fire. I invoke the light
of the violet flame. I summon now the gnomes of the earth
unto this altar of the living God. Come now and be
washed clean by the sacred fires of the Blood of Christ that
descend now from each causal body of these devotees. For
you, beloved ones, are the incarnate Word.*

*Let the Body and the Blood of Christ within you now
be that Sacred Eucharist for which these gnomes hunger
and thirst. Let the light of the Spirit and the light of the
Mater within you, as the light of Virgo and Pelleur, flow
forth from you now as the descent of the sacred fire as
these precious elementals come now from 360 degrees of
the compass.*

*They come now to this forcefield to drink of the light
essence of sons and daughters of God who understand
that the key to the liberation of elemental life is in their
own God-mastery, within their own Christ consciousness.*

Elemental Life Longs and Yearns for the Living Christ

O beloved ones, you, then, are our hope. You are the sole liberators of elemental life. You are the open door that no man can shut.⁵ And therefore the blessed gnomes bow

before the altar of your heart. They bow, as you would bow, before the great Guru, and they acknowledge the Lord Christ within you as their own Guru, whom they would become. They long and they yearn for that living Christ, and they yearn to have the transfer of that cosmic consciousness unto the fullness of God-being within them. Beloved ones, this will come when you will have raised up that light within you as Father light, as Mother light giving birth to the Cosmic Christ within your heart.

Beloved ones, these gnomes—who stand with me as the council of the elect of the gnomes of the entire planetary body—are the chelas of the Father-Mother Virgo and Pelleur. They stand in that relationship to our own manifestation of Alpha and Omega, and all of the gnomes that follow after them seek also to walk after you, to talk and walk with you in the manner of the beholding of the Lord Christ.

Therefore they offer their service in the building of Camelot, in the building of God's kingdom come on earth as it is in heaven.⁶ They offer their very bodies to absorb that which is the impurity of the planetary body and the shock waves of war and the substance of pain and suffering and death and dying. These blessed elementals, beloved ones, would lay down their very life for the great Guru within you, for they were created by the LORD God to be the servants of his sons and daughters, and they will have no other.

And therefore I, Pelleur, and I, Virgo, stand before the Lords of Karma invoking the dispensation for the stripping of every gnome upon earth of all activities of black magic and Satanism and the misuse of their blessed bodies and the body temples of the children of God and the body of the Mother in the earth and the blessed body elementals of the children of light. Let all of these then be stripped of the black magic of the fallen ones and from the imprisoning of elemental life.

I Summon the Gnomes for the Repolarization of Alpha and Omega within Their Forms

I speak to the gnomes on the continent of Africa. I speak to the gnomes in North and South America. I speak to the gnomes in Europe, in Asia. I speak to them across the great lands of Mother Russia, of China, of all the great continents and the islands. I speak to the gnomes in the North and South Poles and in the heart of the earth: "I summon you now for the repolarization of Alpha and Omega from the base unto the crown, from the heart of the gnome unto the heart of Almighty God. Let light flow as I pass through the body of the two witnesses the earth currents of Virgo and Pelleur."

So every gnome upon the blessed earth body receives now the full balancing action. And beloved ones, as your souls may see through the All-Seeing Eye of God, you will see these blessed ones leap and rejoice and sing and cry out "Hallelujah unto the LORD God" as they feel that great burden of planetary karma alleviated this day by the action of Alpha and Omega within their form.

Beloved ones, by the grace of the Lord Jesus Christ and the resurrection flame imparted unto the elementals many years ago,⁷ so now the light of the Word incarnate of Alpha and Omega comes forth through the two witnesses to charge these beings of the elements as the laying of the foundation for the temple most holy and for the entering into the body temple of the earth, of man, of woman, of angels, of the Holy Spirit.

Lord Maha Chohan, minister unto your elemental beings. Lord Maha Chohan, enter the temples of the gnomes. Lord Maha Chohan, angels of comfort, angels of light, seal them in the great geometry of the Guru! Seal them in the light of Padma Sambhava, Milarepa, Gautama Buddha! Seal them in the light of Lord Krishna! Seal them in the light of Lord Jesus, Saint Germain, Mother Mary!

I, Pelleur, invoke the entire Spirit of the Great White Brotherhood and the forcefield from the focus of Cuzco to sustain the balancing of the gnomes twenty-four hours a day unto the victory of light in North and South America, in every continent, in every heart, in every mountain, in every lake and stream, in every tree and flower and blade of grass.

O electrons who have elected to do the free will of the LORD God, I bow before the increment of light within you. I worship the light of God in manifestation in the earth.

Lo, I AM Virgo! Lo, I AM Pelleur! Lo, I AM THAT I AM! I AM Alpha and Omega in the white-fire core of Mother.

Om. Purusha. Purusha. Purusha.

Prophet on March 29, 1964, Jesus offered his own life-energy and the flame of the resurrection as a glad-free gift to all elemental life upon this planet. Jesus stated: “Today the gift of my flame will make it possible for them [the elementals] to feel, throughout their entire manifestation as elemental beings, a part of the radiance of immortality that I AM. Contemplate what this means. It means that they shall no longer be aware of death. The cycles of nature, conceived by God and designed in the higher octaves, lowered into manifestation through the elementals, are endowed with my momentum of the flame of resurrection this day, that from this day forward the elementals shall never again have the sense of death. . . . They shall feel my flame always, and a portion

of that flame resting in them shall remove for time immemorial all of the fear that they have outpictured as the result of mankind’s discord.” *The Path of the Higher Self*, p. 389. Ordering information above.

Freedom for the Elementals

Precious little beings, elementals all
Working in the air and water, field and forest, too
Service to the Father, fulfilled with joyous light
Purifying, balancing all life to set it free.
Then came human shadows, thoughtlessness, and strife
Densifying earth and causing them to toil
As mankind became more selfish, all those shadow grew
All forgot their God Source—perfection they once knew
Now on love’s forgiveness earnestly we call
For the wrongs of man imposed on elementals all.

Gnomes and salamanders, sylphs and undines, too
We all love you for your selfless, patient service true
Let the I AM Presence now rend the human veil
That we all may see you in that light that does not fail.
Freedom flame now seal you in an ovoid bright
With its freeing essence, penetrating light
In its purifying presence, making you aware
Of the love and beauty you had when earth began
Precious elementals, we would be your friends
Walking hand in hand the pathway ’til life’s journey ends.

Helios and Vesta—mighty Central Sun
Through below’d Pelleur and Virgo, bless each little one
Of the nature spirits, the sylphs and undines, too
Now restore to them the happiness that they once knew.
We call forth their freedom through our Saint Germain
Purifying substance in the I AM name
Now restore their radiance, their immortality
Flame of resurrection, it is endowed for thee
Precious little beings, we command you free
By the love of Jesus’ flame for all eternity.*
